State Capacity, Economic Control, and Authoritarian Elections

Merete Seeborg, 2018-03-09 Although the phenomenon of authoritarian elections has been a focal point for the literature on authoritarian institutions for more than a decade our understanding of the effect of authoritarian elections is still limited Combining evidence from cross national studies with studies on selected cases relying on recent field work this book suggests a solution to the paradox of authoritarian elections Rather than focusing on authoritarian elections as a uniform phenomenon it focuses on the differing conditions under which authoritarian elections occur It demonstrates that the capacities available to authoritarian rulers shape the effect of elections and high levels of state capacity and control over the economy increase the probability that authoritarian multi party elections will stabilize the regime Where these capacities are limited the regime is more likely to succumb in the face of elections The findings imply that although multi party competition and state strength may be important prerequisites for democracy they can under some circumstances obstruct democratization by preventing the demise of dictatorships This text will be of key interest to scholars students and practitioners of democratization and to those who study autocracy and electoral authoritarianism as well as comparative politics more broadly

continent address the malaise in its implementation in countries where autocratic rule prevails This pioneering volume will be an invaluable resource for researchers and students working in the fields of education and sociology particularly those with an interest in education policy philosophy of education and global citizenship initiatives

Making Politics in Zimbabwe's Second Republic Gordon Moyo, Kirk Helliker, 2023-05-16 The book provides a fresh and innovative interpretation of the new government of Zimbabwe led by Emmerson Mnangagwa which emerged in late 2017 after the downfall of Robert Mugabe It demonstrates the contradictory character of the Mnangagwa government involving both continuities and discontinuities in relation to Mugabe's regime The temptation amongst Zimbabwean scholars has been to focus on the continuities and to dismiss the significance of any discontinuities notably reform measures This book adopts an alternative approach by identifying and focusing specifically on the existence of a formative project of the Mnangagwa's Second Republic further analysing its political significance as well as risks and limitations While doing so the book covers topics such as reform measures reconciliation transitional justice corruption the media agriculture devolution and the debt crisis as well as health and education Discussing the limitations of these different reform measures the book highlights that any scholarly failure to identify the risks of the project leads to an incomplete understanding of what constitutes the Mnangagwa's Second Republic The book appeals to students scholars and researchers of Zimbabwean and African studies political science and international relations as well as policymakers interested in a better understanding of political reform processes

Post-colonial struggles for a democratic Southern Africa Carolyn Bassett, Marlea Clarke, 2017-06-26 National liberation one of the grand narratives of the twentieth century has left a weighty legacy of unfulfilled dreams This book explores the ongoing struggle for legitimate accountable political leaders in postcolonial Southern Africa focussing on dilemmas arising when ex liberation movements form the governments While the spread of multi party democracy to most countries in the region is to be celebrated democratic practice often has been superficial a limited elitist politics that relies on the symbols of the liberation struggle to legitimate de facto one party rule and authoritarian practices Using country cases from Tanzania Swaziland Zimbabwe South Africa and Zambia the collection explores three subthemes relevant to postcolonial governance in Southern Africa how the struggle for liberation shapes the character of political transformation the nature of rule in one party dominant states headed by former liberation movements and the processes of governance and resistance in post liberation contexts This book was published as a special issue of the Journal of Contemporary African Studies

Politics at a Distance from the State Lucien van der Walt, Kirk Helliker, 2022-08-23 For decades most anti capitalist and anti imperialist movements identified radical transformation with capturing state power The collapse of these statist projects from the 1970s led to a global crisis of left and working class politics But crisis has also opened space for rediscovering alternative society centered anti capitalist modes of bottom up change operating at a distance from the state These have registered important successes in practice such as the Zapatistas in Mexico and Rojava in Syria They have been a

key influence on movements from Occupy in United States to the landless in Latin America to anti austerity struggles in Europe and Asia to urban movements in Africa Their lineages include anarchism syndicalism autonomist Marxism philosophers like Alain Badiou and radical popular praxis This path breaking volume recovers this understanding of social transformation long side lined but now resurgent like a seed in the soil that keeps breaking through and growing It provides case studies with reference to South Africa and Zimbabwe and includes a dossier of key texts from a century of anarchists syndicalists insurgent unionists and anti apartheid activists in South Africa Originating in an African summit of radical academics struggle veterans and social movements the book includes a preface from John Holloway *New Millennium Woes and Livelihood Struggles in Africa* Peter Thomas, Ngonidzashe Marongwe, 2021-05-19 One of the oldest survival pursuits undertaken by the weak and the downtrodden people across the world has been begging Going back to the ancient Christian biblical times up to the present epoch as well as across varying spatial settings in situations of trouble and tribulations parts of various communities have resorted to beggary to either overcome immediate adversities or longer term calamities Drawing on insights from two polar theoretical lenses of Social Constructionism and Social Deconstructionism and guided by a pithy study of the begging across the African continent especially by Zimbabweans this book troubles the various contours related to the subject of begging Inter alia the book considers the concept of begging the causes of the prevalence of begging across the world and particularly among Zimbabweans the challenges and benefits associated with the pursuit of alms the impact of begging in foreign lands as well as some of the strategies that beggars employ to maximize their collections and or profits What can be discerned from the book is that for many begging is one of the last resort undertakings with low pickings However from a utilitarian perspective begging has helped to sustain the impoverished livelihoods of Zimbabweans both inside and outside the borders of the country since the advent of a debilitating crisis experienced from the turn of the new millennium On the whole this book seeks to provoke further researches on an important socio economic area that affects many African communities but has so far been scantily researched The book is handy for students and practitioners in economic history African studies economics risk and disaster management social anthropology political science and development studies Still Counting Marilyn Waring, 2018-12-06 Underneath the numbers a philosophical judgement is always being made based on values not facts Thirty years ago Marilyn Waring s groundbreaking book *Counting for Nothing* was released Waring explained through meticulous economic analysis how the success of the global economy rests on women s unpaid work *Counting for Nothing* became a phenomenon it was read and discussed around the world and even made into a film Today many people hope that the shift to a wellbeing approach moving beyond narrow economic indicators when assessing New Zealand s progress will mean women s work is finally valued fairly But what does Marilyn Waring make of it This short book provides an essential assessment of wellbeing economics from a leading feminist scholar

Infrastructures for Peace in Sub-Saharan Africa Mediel Hove, Geoff Harris, 2019-06-14 Cultures of violence are

characteristic of many countries in sub Saharan Africa and attempts to move towards cultures of peace have often proved difficult and ineffectual And yet the wide variations in levels of violence within and between countries show that it is not inevitable rather it is the result of choices made at individual community and societal levels This book examines the potential of peace infrastructures as vehicles to strengthen and spread progress towards cultures of peace Peace infrastructures vary hugely in sophistication and level The examples examined in this book range from tiny structures which help resolve conflicts between individuals and within community organisations peace committees which serve local communities peace education and peace club programmes in schools mediation mechanisms to prevent election violence and to ministries of peace to coordinate government and non government efforts in peacemaking and peacebuilding The overall finding is that the development of peace infrastructures at all levels has great potential to build cultures of peace 1 It is the only book available which documents the experience and potential of nonviolence in post independence sub Saharan Africa 2 It makes a persuasive case for the development of various peace infrastructures in order to make peace sustainable 3 It explains how strategic planning can be utilised both to bring about change and to institutionalise it

Mugabeism after Mugabe? Duri, Fidelis Peter Thomas, Marongwe, Ngonidzashe, Mawere, Munyaradzi, 2019-10-22 Arguably one of the long waited political handover of power globally happened in November 2017 in Zimbabwe when the former and now late 37 year long serving and divisive President Robert Gabriel Mugabe was forced out of power by a combination of forces that were spearheaded by the military's Operation Restore Legacy Mugabe's departure ushered in President Emmerson Dambudzo Mnangagwa's reign This

transition has variously been characterised as marking the inauguration of the Second Republic or New Dispensation or as heralding a new Zimbabwe that is Open for Business From the moment of the investiture of President Mnangagwa's government anticipations of seismic changes to the order of doing business by both the incoming government and the larger Zimbabwean society in general were extremely high There was an expectation that international cooperation with global partners especially in the West would be restored alongside the reinvigoration of a near comatose domestic economy But did this ever happen This volume interrogates the impact of the introduction of the Mnangagwa administration from November 2017 The book seeks to broadly dissect and troubleshoot issues of continuity and change from Mugabe's reign into Mnangagwa's Second Republic In doing so the book attempts to respond to the grand question To what extent has Mugabeism that was the hallmark of Mugabe's reign continued or discontinued into the Second Republic The volume which comes as a sequel to *The end of an era Robert Mugabe and a conflicting legacy* is sure to generate interest and responses from students and academics in the fields of History International Studies Political Science Sociology and Social anthropology as well as from practitioners in the human rights transitional justice conflict resolution security studies and diplomatic fields
