Internationalization Of China's Privately Owned Enterprises: Determinants And Pattern

Selection Wen Xiao,Liyun Liu,2015-07-13 Since China s adoption of the go global strategy more and more of China s privately owned enterprises have focused on outward foreign direct investment and by doing so they have become the major market participants in China s internationalization process This book presents authoritative academic and professional insights into the determinants of internationalization of China s indigenous privately owned enterprises The case studies in depth interviews and investigations in this book will capture the interest of the readers and provide them with the background material and understanding of the determinants and possible pattern selection for internationalization of China s privately owned enterprises

Equilibrium, Markets and Dynamics Cars H. Hommes,Roald Ramer,Cees A.

Withagen,2002-05-14 This book contains essays in honour of Claus Weddepohl who after 22 years is retiring as professor of mathematical economics at the Department of Quantitative Economics of the University of Amsterdam Claus Weddepohl may be viewed as th first Dutch mathematical economist in the general equi librium tradition of Arrow Debreu and Hahn The essays in this book are centered around the themes Equilibrium Markets and Dynamics that have been at the heart of Weddepohl s work on mathematical economics for more than three decades The essays have been classified according to these three themes Admittedly such a classification always is somewhat arbitrary and most essays would in fact fit into two or even all three themes The essays have been written by international as well as Dutch friends and colleagues including Weddepohl s former Ph D students The book starts with a review of Claus Weddepohl s work by Roald Ramer who has been working with him in Amsterdam for all those years The review describes how Weddepohl became fascinated by general equilibrium theory in the early stages of his career how he has been working on the theory of markets throughout his career and how he turned to applications of nonlinear dynamics to price adjustment processes in a later stage of his career The first part of the book Equilibrium collects essays with general equilib rium theory as the main theme
