SMART GOAL EXAMPLE

Specific?

"studying for an exam" is more specific than just "studying". Specific isn't always better. You ideally want to avoid being vague and then have a good reason for the level of specificity used.

Measureable?

50 hours can be measured

for my
June 12th exam

Timed?

this month

Relevant?

Is the number 50 especially relevant? Has the ideal outcome of this been considered? Have other responsibilities been taken into consideration? How important is it to study this much? why?

Attainable?

Depends on the unique circumstances surrounding the individual. "Does your goal feel attainable to you?" is the most important question to ask
