against or collaborated with the Japanese colonizers at or around a hill station called Musha starting on October 27 1930 while this book celebrates the grandchildren of headhunters rebels and collaborators who translated the Mandarin language screenplay into Seediq in central Taiwan nearly eighty years later As a thick description of Seediq Bale this book describes the translation process in detail showing how the screenwriter included Mandarin translations of Seediq texts recorded during the Japanese era in his screenplay and then how the Seediq translators backtranslated these texts into Seediq changing them significantly It argues that the translators made significant changes to these texts according to the consensus about traditional Seediq culture they have been building in modern Taiwan and that this same consensus informs the interpretation of the Musha Incident and of Seediq culture that they articulated in their Mandarin Seediq translation of the screenplay as a whole The argument more generally is that in building cultural consensus indigenous peoples like the Seediq are translating their traditions into alternative modernities in settler states around the world **Sounds Australian** ,1997
