Multicampus University Systems Ishmael I. Munene, 2014-08-27 In the face of increasing social demand and cutbacks in state budgetary support universities in African countries are now turning towards a multicampus system strategy As African governments have adopted neoliberal education policies that place premium on entrepreneurialism profit making privatization and markets as drivers of university development a reshaping of the academic work and organizational framework have taken place However little is known about the impact of this paradigm shift on access quality and governance in higher education This book fills the void in research and academic knowledge about the impact of the emerging university configurations in Africa It analyzes the paradox surrounding the performance of multicampus university systems as avenues of broadening university access but whose structural success may be qualitatively contested This book offers a refreshing examination of the African multicampus university system from both an African and global perspective It makes use of empirical data from Kenya collected during extensive fieldwork along with substantive library and documentary resources on the rest of the continents to fortify arguments and demonstrate important conclusions This allows for a comparative analysis of policies and strategies used in the establishment of campuses both within and beyond national boundaries in the continent and will be a welcome contribution to the existing repertoire on African universities **The Report: Kenya 2017** , As the largest economy in the EAC and COMESA in terms of GDP Kenya has positioned itself as a major economic power in sub Saharan Africa Traditionally a largely agrarian economy Kenya has quickly entrenched its position as a manufacturing logistics and technology hub in the region and this diversification forms a solid platform from which the government can generate economic growth over the coming years The resolution of the electoral process improving business confidence and strong private consumption are likely to support GDP expansion over 2018 and into 2019 In April 2018 the IMF estimated the economy would expand by 5.5% in 2018 and 6% in 2019 compared to 4.8% in 2017

Emerging Dynamics in the Provision of Private Higher Education in Africa Wondwosen Tamrat, Damtew Teferra, 2024-05-29 This edited book examines the private higher education PHE sector in African countries Reports suggest that private institutions across the continent outnumber their public counterparts yet there has been little scholarly investigation into this emerging phenomenon The book therefore seeks to document map and analyse key trends and contemporary themes in the PHE sector as well as chart historical developments policy and regulatory frameworks As a whole it provides the reader with in depth knowledge rich perspectives and robust analyses from leading authorities in the field Contributions from all sub regions combine thematic issues with shaping discourse on the topic and the discussions are undertaken in the context of global perspectives The book will be of interest to academics researchers postgraduate students policy makers analysts and development partners interested in African higher education and PHE in particular
