Organizing Women Workers in the Informal Economy Naila Kabeer, Ratna Sudarshan, Kirsty Milward, 2013-03-14 Women as a group have often been divided by a number of intersecting inequalities class race ethnicity caste As individuals often isolated in reproductive or other home based work their weapons of resistance have tended to be restricted to the traditional weapons of the weak hidden subversions and individualised struggles *Organizing Women Workers in the Informal Economy* explores the emergence of an alternative repertoire among women working in the growing informal sectors of the global South the weapons of organization and mobilization This crucial book offers vibrant accounts of how women working as farm workers sex workers domestic workers waste pickers fisheries workers and migrant factory workers have organized for collective action What gives these precarious workers the impetus and courage to take up these steps What resources do they draw on in order to transcend their structurally disadvantaged position within the economy And what continues to hamper their efforts to gain social recognition for themselves as women as workers and as citizens With first hand accounts from authors closely involved in emerging organizations this collection documents how women workers have come together to carve out new identities for themselves define what matters to them and develop collective strategies of resistance and struggle *Cave of My Ancestors* Kirin Narayan, 2024-09-24 Exploring family stories reveals the rich history of a seventh century Buddhist shrine As a young girl in Bombay Kirin Narayan was enthralled by her father's stories about how their ancestors had made the ancient rock cut cave temples at Ellora Recalling those stories as an adult she was inspired to learn more about the caves especially the Buddhist worship hall known as the Vishwakarma cave Immersing herself in family history oral traditions and works by archaeologists art historians scholars of Buddhism Indologists and Sanskritists Narayan set out to answer the question of how this cave came to be venerated as the home of Vishwakarma the god of making in Hindu and Buddhist traditions *Cave of My Ancestors* represents the perfect blend of Narayan's skills as a researcher and writer Her quest to trace her family's stories took her to Ellora through libraries archives and museums around the world and across disciplinary borders Equal parts scholarship detective story and memoir Narayan's book ably leads readers through centuries of history offering a sensitive meditation on devotion wonder and all that connects us to place family the past and the divine **Wellness in Indian Festivals & Rituals J**

Wellness in Indian Festivals & Rituals J Mohapatra, 2013-12-24 In this book *Wellness by Festivals Customs Beliefs* Mr Mohapatra has revealed various rituals and traditional beliefs with interesting incidents of God worshipping and observations followed by all communities living in India

India is the land of great tolerance and every Indian is allowed to worship any religion freely There exists one Supreme Divine who is manifested in all the Gods and all religions of men He is real omnipresent and exists in nature as well as inside the human Rituals are followed for psychological and physiological health longevity prosperity and wealth This book shall impart knowledge about various customs and rituals being observed by different communities in India Righteousness religion duty reponsibility virtue justice goodness and truth are treated as Divine law It is a way of life and is called as Eternal Religion In Indian philosophy it is believed that every act or deed must necessarily be followed by its consequences which are not merely of a physical character but also mental and moral Encyclopedia of Government and Politics Mary

Hawkesworth,Maurice Kogan,2013-11-07 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life With its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers *Technological Choices* Pierre Lemonnier,2013-10-15 Technological Choices

applies the critical tools of archaeology to the subject of technology and its impact on humankind throughout the ages An examination of the challenges technological innovations present to various cultures Technological Choices asserts that in any society such choices are made on the basis of cultural values and social relations rather than on the inherent benefits in technology itself Of course this revolutionary viewpoint has critical implications for contemporary Western societies Based on case studies covering a wide range of chronologies and geographies Technological Choices moves rapidly from Neolithic Europe to the modern industrial age stopping on the way to examine the tribes of Papua New Guinea rural Indian and North African societies as well as several European peasant communities The techniques studied range from the manufacture of stone implements to the development of high tech transportation devices With its breadth of subject matter and multidisciplinary approach Technological Choices offers new insight into the interrelationship between technology and society Also unprecedented is the book s emphasis on the functional aspects of material culture *Temples of Modernity*

Robert M. Geraci,2018-08-15 Temples of Modernity uses ethnographic data to investigate the presence of religious ideas and practices in Indian science and engineering Geraci shows 1 how the integration of religion science and technology undergirds pre and post independence Indian nationalism 2 that traditional icons and rituals remain relevant in elite scientific communities and 3 that transhumanist ideas now percolate within Indian visions of science and technology This

work identifies the intersection of religion science and technology as a worldwide phenomenon and suggests that the study of such interactions should be enriched through attention to the real experiences of people across the globe **Architecture**

for Rapid Change and Scarce Resources Sumita Singha, 2013-07-03 Architects development practitioners and designers are working in a global environment and issues such as environmental and cultural sustainability matter more than ever Past interactions and interventions between developed and developing countries have often been unequal and inappropriate We now need to embrace fresh design practices based on respect for diversity and equality participation and empowerment This book explores what it means for development activists to practise architecture on a global scale and provides a blueprint for developing architectural practices based on reciprocal working methods The content is based on real situations through extended field research and contacts with architecture schools and architects as well as participating NGOs It demonstrates that the ability to produce appropriate and sustainable design is increasingly relevant whether in the field of disaster relief longer term development or wider urban contexts both in rich countries and poor countries Science and Religion in India

Renny Thomas, 2021-12-30 This book provides an in depth ethnographic study of science and religion in the context of South Asia giving voice to Indian scientists and shedding valuable light on their engagement with religion Drawing on biographical autobiographical historical and ethnographic material the volume focuses on scientists religious life and practices and the variety of ways in which they express them Renny Thomas challenges the idea that science and religion in India are naturally connected and argues that the discussion has to go beyond binary models of conflict and complementarity By complicating the understanding of science and religion in India the book engages with new ways of looking at these categories The

Three Ages of Atlantis Diego Marin, Ivan Minella, Erik Schievenin, 2013-11-28 Scientific and anthropological evidence for multiple Atlantean empires and the global catastrophes that destroyed them Reveals that there was not one but three Atlantises the first in Antarctica the second in South America and the third in the Mediterranean Examines geological evidence of super floods 15 000 11 600 and 8 700 years ago Shows how these flood dates directly parallel the freezing of Antarctica the migrations of Cro Magnon men and the destruction of Atlantis according to Plato 15 000 years ago the Earth's axis tilted shifting the geographic poles Volcanoes erupted the icecaps melted and the seas rose dramatically Antarctica was enveloped in ice destroying the high civilization of prehistory Atlantis But before the survivors could reestablish what they had lost catastrophe struck again twice Uniting scientific findings with theories on the location of Atlantis the authors reveal that there was not one but three Atlantises the first in Antarctica the second in South America and the third in the Mediterranean Examining paleoclimatology data they show that Antarctica was temperate 15 000 years ago and home to the original Atlantis They explore geological evidence of three worldwide super floods 15 000 11 600 and 8 700 years ago and show how these dates directly parallel the freezing of Antarctica the arrival of Cro Magnon man in Europe and the destruction of Atlantis according to Plato Uncovering the influence of the Atlanteans in Proto Indo European languages and

in massive ancient monuments aligned with the stars they show how the civilization founders in all early myths the Pelasgians Danaans Viracocha Aryans and others were part of the Atlantean diaspora and how this migration split into two major movements one to Latin America and the other to Europe and Asia Following the Atlanteans from a warm Antarctica up to Peru Mexico and the Mediterranean they reveal that Cro Magnon men are the people of Atlantis and that we are just now returning to their advanced levels of science technology and spirituality **Host Bibliographic Record for Boundwith Item Barcode 30112050248951 and Others ,2013**
