OWNER'S MANUAL

Speaker System

Thank you for selecting this YAMAHA NS-90 speaker system.

PRECAUTIONS

- Read these precautions carefully before using your speaker.
- Any time you move the speaker, the relative position of your amplifier is a lower setting. Never allow your amplifier to be driven into "clipping." Otherwise the speaker may be damaged.
- When using an amplifier with a rated output power higher than the nominal input power of the speaker, care should be taken never to exceed the speaker's rated power.
- Do not attempt to clean the speaker with mechanical cleaning as this might damage the finish. To clean, wipe with a dry soft cloth.
- To prevent the speaker from being damaged, do not place the speaker where it will be subjected to direct sunlight or excessive humidity.
- Do not place the speaker where it is liable to be knocked over or struck by falling objects. Stable placement will also ensure better sound performance.
- Placing the speakers on the same shelf or rack as the turntable can result in feedback.
- Secure placement of speakers is also important to prevent vibration from the turntable or any external source from being passed to the speaker.

PLACING THE SPEAKERS

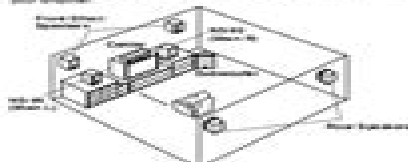

Place the speakers on a sturdy, vibration-free surface, on a soft, level stand.

Using as both stereo speakers

Best stereo images will be obtained when the speakers are correctly oriented as shown in the diagram.

Using as main speakers in a multi-channel system

Position the speakers on both sides of the TV. The positioning of speakers is important because it controls the whole sound quality of a multi-channel system. You can use the guidelines for stereo listening position by following the center's manual supplied with your receiver.

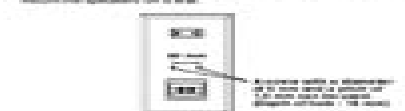

Using as front effect or rear speakers

Mount on a wall at an angle or a shallow angle toward the front listening position for a fuller, warmer sound in a multi-channel system. Determine the best position and angle for the speakers by following the guidelines in the center's manual supplied with your amplifier.

Mounting the speakers on a wall

Mount the speakers on a wall by using the brackets provided on the back of the speaker. (When screws into a wall, use an appropriate drill bit in the diameter, and using the correct drill mounting method on the mounting bracket.)

You can also use the screw holes on the back of the speaker to mount the speakers on a wall.

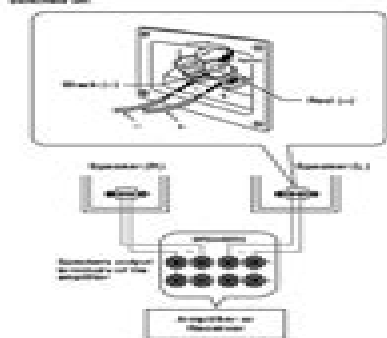

Notes

- Be sure to check the wall before attempting to mount these speakers on a wall. If necessary, please consult an installation specialist or the shop where the speakers were purchased.
- When hanging speakers on a wall, use screws that are appropriate for the weight of the speakers. The thickness of the wall, etc.

CONNECTIONS TO YOUR AMPLIFIER

Before making connections, make sure that the amplifier is switched off.

Connections

- Connect the correct type input terminals of the rear of the speakers to the speaker output terminals of your amplifier with the speaker cables.
- Connect the correct type input terminals of the speakers to the amplifier with the speaker cables.
- Connect one speaker to the left (positive) (+) terminals of your amplifier and another speaker to the right (negative) (-) terminals, making sure not to connect the positive (+) or (-) of one speaker to the negative (-) terminal of the other.

Precautions

- Remove the terminal caps.
- Remove the speaker cable insulation from the speaker cable and insert the bare wire into the terminal hole.
- Remove the terminal caps.
- Use the correct type of connection for proper safety of the cable or terminal.

Notes

Do not let the bare speaker wires touch each other or the back of the speaker or the amplifier.

REMOVING THE FRONT COVER

The front cover is fastened to the enclosure at four points, and can be removed if desired. To remove the cover, hold on to both sides and slowly pull straight away from the speaker. To reattach, line up the front edge of the cover surface of the cover with the four corresponding holes on the speaker and push gently.

Note: When the cover is removed, take care not to touch the speaker with your hands or the front enclosure. Deal with care.

Merci pour avoir choisi le système d'enceintes YAMAHA NS-90.

PRECAUTIONS

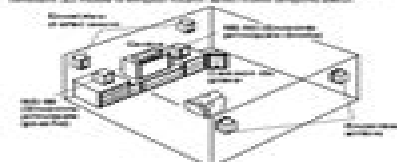

- Lisez les précautions d'utilisation avant d'utiliser les enceintes.
- Ne laissez jamais une enceinte de son, reliée à un récepteur de son, sans surveillance. Un mauvais réglage du volume peut entraîner une amplification en puissance ("clipping"). Sinon, les enceintes pourraient être endommagées.
- Quand vous utilisez un amplificateur avec une puissance de sortie plus élevée que la puissance nominale d'entrée des enceintes, faites attention de ne jamais dépasser la limite d'entrée maximale des enceintes.
- Ne laissez pas les enceintes sans surveillance quand elles sont reliées à un récepteur de son. Elles pourraient être endommagées.
