South Dakota Student Learning Objectives Handbook Matt Gill, Janeen Outka, Mary McCorkle, 2015 Student growth is one of two essential components of South Dakota's Teacher and Principal Effectiveness Systems. In the state systems, student growth is defined as a positive change in student achievement between two or more points in time. The South Dakota SLO Handbook provides support and guidance to public schools and school districts working to incorporate quantitative measures of student growth into local Educator Effectiveness Systems. This document defines key concepts, provides implementation resources, and offers guidance to support the development of high quality SLOs. One key resource being used by schools implementing high quality Educator Effectiveness Systems is the SLO Process Guide found in Appendix A. This guide, based on the most pertinent research surrounding the use of SLOs, was created to assist educators in the process of using data to inform instructional decisions. Readers of the South Dakota SLO Handbook will find that it follows the structure of the guide but delves into more detail to help readers navigate the SLO process for the first time. The following are appended: 1 SLO Process Guide 2 2014-15 3 SLO Quality Checklist 4 Assessment Quality Checklist 5 Assessment Planning Guide and 6 SLO Special Education Examples. Also included are a list of resources and a glossary. The South Dakota Commission on Teaching and Learning CTL is an ongoing partnership between the South Dakota Department of Education, SD DOE, the South Dakota Education Association, and East Dakota Educational Cooperative.

South Dakota's State Assessment System South Dakota State Board of Education, Pierre, 2004 The South Dakota Assessment System provides information for schools to use in evaluating their teaching and curriculum, as well as allowing parents to monitor their child's progress. All public schools in South Dakota test students according to South Dakota Codified Law 13-3-55, which was adopted in January 1997 and amended in January 2003. This law mandates that every public school district shall annually administer the same assessment to all students in grades three to eight inclusive and in grade eleven. The assessment shall measure the academic progress of each student. Every public school district shall also annually administer to all students in grades five and nine an achievement test to assess writing skills. The assessment instruments shall be provided by the Department of Education. Each state designed test shall be correlated with the state's content standards. The assessment is used to determine individual, school level, district level, and statewide achievement in reaching the goal of proficiency of the state's

essential core reading and math content standards South Dakota has four performance levels Advanced Proficient Basic and Below Basic Performance descriptors have been set for reading and mathematics These descriptors are narrative statements of academic achievement at each of the performance levels and provide students parents and teachers with information as to the level of mastery of South Dakota essential core content standards Individual reports are available for the state assessments School building and district results show how groups of students are performing and the success of the school or district in helping students meet the proficient and advanced performance levels Those students who are unable to participate in a statewide assessment as determined by the IEP Individual Education Program team will participate in the Statewide Team led Alternate Assessment Reporting System STAARS A resource list is provided An Eligibility Criteria Worksheet is appended *A Suggested Plan for Equalization of Educational Opportunity in South Dakota* South Dakota.
