Festivals and Values Waldemar Kuligowski, Marcin Poprawski, 2023-11-27 This is an original book covering all the past areas of research anyone would need to know about festivals and event based culture It is based on academic research but written in a way relevant for cultural professionals uniquely explaining the cultural power of festivals and with original empirical research the realities of organisation and management and social and economic value Dr Jonathan Vickery Reader in Cultural Policy Studies and Director Centre for Cultural and Media Policy Studies University of Warwick This book discusses music festivals in the context of the specific values they convey Today music festivals are a permanent feature of national regional and local cultural policies a valuable asset in the tourism industry and a significant source of income for an industry that has

been adversely affected by the steady decline in physical sales of music. For the audience on the other hand it is an opportunity to escape from everyday life, multi sensory contact with art, an activity that stands for full body participation, a cultural phenomenon that drags people out of their homes like no other. There is one common denominator linking the above mentioned features of contemporary music festivals, namely the world of values. This is evident from the non accidental locations, festivals spaces, design planning and the line ups created consciously with great care. The organisers' missions, logos and other symbolic organisational artefacts communicate specific values. These values are explicitly mentioned by artists and audiences, they can be easily identified in online forums and media reports, participant behaviour, festival rituals and additional festival programs are shaped on the basis of values and cooperation is built between the festival and the local community. As the reader will quickly realize, numbers and statistics sit alongside descriptions and quotations in this book and the organisers' statements are accompanied by the opinions of academics, but above all the festival audience is given a voice, both through quotations and their drawings. This voice is by no means uniform, as it turned out that research into values was often transformed into a pretext for spinning tales about one's life situation, one's political preferences and one's understanding of freedom and responsibility. Memories were mixed with declarations of joy with regret, curses with dreams, prose with poetry. Thomas Pettitt was not wrong in noting that Social history has learnt to appreciate festival as a valuable window on society and its structures. The authors have tried to open all the windows available. Students and researchers in the fields of cultural anthropology, social psychology, folklore studies, comparative religion, sociology of culture, cultural policy, cultural history and cultural management will find this book highly interesting. *Rave On* Matthew Collin, 2024-05-31

Electronic dance music has been a vital force for more than three decades now and has undergone transformation upon transformation as it has taken over the world. In this searching lyrical account of dance music culture worldwide, Matthew Collin takes stock of its highest highs and lowest lows across its global trajectory. Through firsthand reportage and interviews with clubbers and DJs, Collin documents the itinerant musical form from its underground beginnings in New York, Chicago and Detroit in the 1980s to its explosions in Ibiza and Berlin to today's mainstream music scenes in new frontiers like Las Vegas, Shanghai and Dubai. Collin shows how its dizzying array of genres from house, techno and garage to drum and bass, dubstep and psytrance have given voice to locally specific struggles. For so many people in so many different places, electronic dance music has been caught up in the search for free cultural space, forming the soundtrack to liberation for South African youth after Apartheid, inspiring a psychedelic party culture in Israel, offering fleeting escape from and at times into corporatization in China, and even undergirding a veritable independent republic in a politically contested slice of the former Soviet Union. Full of admiration for the possibilities the music has opened up all over the world, Collin also unflinchingly probes where this utopianism has fallen short, whether the culture maintains its liberating possibilities today.

and where it might go in the future *Music Trade Indicator*, 1918 *Music Clubs Magazine*, 1937 *Bicentennial Times*, 1973 **A Curious Mix of People** Greg Beets, Richard Whymark, 2023-10-17 Ask anyone outside of Austin what they know about the city and chances are the first thing they'll mention is the music While the Armadillo Era has been well chronicled there is no book about Austin music in the 90s Greg Beets and Richard Whymark were part of the scene at that time making zines playing in bands and DJing at the college radio station and have put together an oral history of the decade Beets and Whymark are not trying to cover all of the music made in Austin during the 1990s they're most interested in the underground punk community in which they participated While a few of those bands got big e.g. Spoon the music remained mostly local DIY It was driven by live shows though local media radio TV print record stores and a few labels were also important to the story Beets and Whymark devote chapters to those elements but almost half of the chapters are based around a particular club Organizing the book around physical spaces is not only appropriate for telling the story of the music it is nice framing for the larger story of Austin As the authors note the city was still a relatively sleepy place in the early 1990s with vacant blocks downtown and loads of small clubs that opened and closed simply because music minded people wanted a place to play By 1999 longtime venues like the Electric Lounge and Liberty Lunch were bulldozed to make way for development and tech companies *The Event of Music History* J. P. E. Harper-Scott, 2021 Brings musicology to the cutting edge of debates in the postmodern philosophy of history This book presents a new theory of how to write music history and offers an exemplar of this new theory in action in a series of four chapter length reflexions on Beethoven's heroic style The first book length theory of music history since Carl Dahlhaus's *Foundations of Music History* it brings musicology to the cutting edge of debates in the postmodern philosophy of history While the book engages with current thinking it also goes further than the postmodern critique of history writing to find a new and positive basis for the writing of music history In so doing the book revisits the philosophy of Alain Badiou in place of a focus on the facts the objects of history whose problematic relation to history writing the theorists have demonstrated the book proposes a focus instead on the subjects of history the faithful reactive and obscure responses to an Event a kind of rapture of ontology which brings the actors involved closer to a truth It sees musical materials the styles techniques and musical language handed down to composers by history in a dialectical relationship with the human beings who are music's manifold historical actors Engagingly written this new short theory of music history will be essential reading for scholars and students of the many area studies within music history It will also attract those of neighbouring disciplines dealing with the philosophy of history or the history of historiography *Creativity in PR and Communications* Jon Cope, Stuart Mayell, 2025-11-03 Being creative is a key component and necessity in public relations and within creative industries to target business challenges create briefs and to meet targets Creativity in PR and Communications is a textbook for all PR students and anyone taking creative communication courses looking to enhance their understanding of the creative process It explores Fostering a creative mindset Cultivating creativity Creative thinking
