discusses what constitutes a disadvantaged small business for purposes of federal and federally funded contracting programs
and how firms are certified or otherwise designated as such Three primary categories of disadvantaged small businesses are
currently eligible for various contracting programs 1 small businesses participating in the Small Business Administration s
SBA s Minority Small Business and Capital Ownership Development Program commonly known as the 8 a Program 8 a

participants 2 small disadvantaged businesses SDBs and 3 disadvantaged business enterprises DBEs These firms are characterized as disadvantaged because they are at least 51% owned by one or more socially and economically disadvantaged individuals or groups However social and economic disadvantage is defined somewhat differently for each program Members of certain racial and ethnic groups are presumed to be socially disadvantaged for purposes of the 8 a and SDB programs while women are also presumed to be socially disadvantaged for purposes of the DBE program Similarly individuals net worth must be 250 000 or less for entry into the 8 a Program while net worth can be as high as 750 000 for newly designated SDBs or DBEs The programs for the various types of firms also differ in their operation The 8 a Program is open only *Full Committee Hearing on the Small Business Administration's Microloan Program* United States. Congress. House. Committee on Small Business,2007 *Small Business Administration 7(a) Loan Guaranty Program* Congressional Research Service,2015-02-12 The Small Business Administration SBA administers several programs to support small businesses including loan guaranty programs designed to encourage lenders to provide loans to small businesses that might not otherwise obtain financing on reasonable terms and conditions The SBA s 7 a loan guaranty program is considered the agency s flagship loan program Its name is derived from Section 7 a of the Small Business Act of 1953 P L 83 163 as amended which authorizes the SBA to provide business loans and loan guaranties to American small businesses In FY2014 the SBA approved 52 044 7 a loans totaling 19 2 billion The average approved 7 a loan amount was 368 737 Proceeds from 7 a loans may be used to establish a new business or to assist in the operation acquisition or expansion of an existing business Congressional interest in the 7 a program has increased in recent years because of concerns that small businesses might be prevented from accessing sufficient capital to enable them to assist in the economic recovery Some including President Obama argue that the SBA should be provided additional resources to assist small businesses in acquiring capital necessary to start continue or expand operations with the expectation that in so doing small businesses will create jobs Others worry about the long term adverse economic effects of spending programs that increase the federal deficit They advocate business tax reduction financial credit market reforms and fiscal restraint as the best means to help small businesses further economic growth and job creation This report discusses the rationale provided for the 7 a program the program s borrower and lender eligibility standards and program requirements and program statistics including loan volume loss rates use of proceeds borrower satisfaction and borrower demographics It also examines issues raised concerning the SBA s administration of the 7 a program including the oversight of 7 a lenders and the program s lack of outcome based performance measures In addition the report surveys congressional action taken during the 111th Congress to enhance small businesses access to capital including the providing more than 1 1 billion to temporarily subsidize the 7 a and 504 Certified Development Companies CDC loan guaranty programs fees and temporarily increase the 7 a program s maximum loan guaranty percentage to 90% funding was exhausted on January 3 2011 raising the 7 a program s gross loan limit from 2 million to 5
