African Navies Timothy Stapleton, 2022-11-11 This edited volume focuses on aspects of the understudied theme of African sea power including African navies and the engagement of non African navies with the continent Africa possesses 48 000 kilometers of coastline comprising 38 out of 54 of the continent s states and several strategic choke points for international shipping such as the Suez Canal the Gulf of Aden and the Cape of Good Hope Nevertheless post colonial Africa s small navies and their relations with the navies of external powers have not received much scholarly attention Focusing on Sub Saharan Africa this collection attempts to address this neglect and stimulate further research by offering original chapters related to historical and contemporary themes around Africa s navies The historical chapters cover the origin of the Tanzanian Ethiopian Nigerian and Ghana navies during the era of decolonization and the Cold War the asymmetrical naval campaign fought during the Nigerian Civil War 1967 70 and the activities of the Soviet Navy in supporting African states and movements fighting lingering colonialism and white supremacy during the 1970s and 1980s Focusing on the contemporary situation other chapters discuss the engagement of the Indian Navy with Africa the potential role of the Angolan and Mozambican navies in the Southern African Development Community SADC the transformation and development of the post apartheid South African Navy and the challenges and capabilities of African navies in the early twenty first century The book concludes by discussing the question of whether African coastal countries need navies This book will be of much interest to students of naval power strategic studies African politics and International Relations Chapters 1 2 6 and 8 of this book are available for free in Open Access at www.taylorfrancis.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license

Naval Powers in the Indian Ocean and the Western Pacific Howard M. Hensel, Amit Gupta, 2018-05-11 A vital component of the interdependent global economy maritime transit routes are nowhere more critical than those traversing the Indian Ocean and the Western Pacific Previously areas of the Indian Ocean and Western Pacific have been viewed as separate and discrete political economic and military regions In recent years however a variety of economic political and military forces have created a new understanding of these maritime expanses as one zone of global interaction This book complements the material presented in its companion volume *Maritime Security in the Indian Ocean and the Western Pacific* by analysing the perceptions interests objectives

maritime capabilities and policies of the major maritime powers operating in the Indian Ocean and the Western Pacific In addition the book also assesses the contemporary maritime challenges and opportunities that confront the global community within what is rapidly becoming recognised as an integrated zone of global interaction A valuable study for researchers and policymakers working in the fields of maritime security military security and peace studies conflict resolution and Asian affairs

Capacity Building for Maritime Security Christian Bueger, Timothy Edmunds, Robert McCabe, 2020-10-09 This book studies recent attempts to restructure maritime security sectors through capacity building It innovates both theoretically and empirically It proposes a new framework for understanding maritime capacity building drawing on work in peacebuilding and security sector reform The framework is then applied across empirical case studies from the Western Indian Ocean WIO region written by scholars from the Global South The WIO region is a paradigmatic case to study maritime security and capacity building in action Countries in the region face the full gamut of maritime security challenges while their indigenous capacities to deal with these are often weak In consequence the region functions as an engine of innovation for maritime capacity building more widely The lessons and best practices from the region have importance consequences for addressing maritime security across the globe

Global Challenges in Maritime Security Lisa Otto, 2020-04-21 From pirates to smugglers migrants to hackers from stolen fish to smuggled drugs the sea is becoming a place of increasing importance on the global agenda as criminals use it as a theatre to conduct their crimes unfettered This volume sets out to provide an introduction to the key issues of pertinence in Maritime Security today It demonstrates why the sea is a space of great strategic importance and how threats to security at sea have a real impact for people around the world It examines an array of challenges and threats to security playing out at sea including illegal unreported and unregulated fishing irregular migration piracy smuggling of illicit goods and cyber security while also looking at some of the mechanism and role players involved in addressing these perils Each chapter provides an overview of the issue it discusses and provides a brief case study to illustrate how this issue is playing out in real life This book thus allows readers an insight into this evolving multidisciplinary field of study As such it makes for an informative read for academics and practitioners alike as well as policymakers and students offering a well rounded introduction of the main issues in current Maritime Security

India's Naval Diplomacy P.V. Rao, 2022-05-16 This book studies India's evolving naval engagements with other nations of the Indian Ocean region It traces the growth of the Indian Navy and discusses its role as an instrument of meeting national objectives particularly for furthering foreign policy The volume analyses themes such as Indian Navy's IN transition from a brown water to blue water force Indian maritime debates and doctrines naval bridge building missions and Sino Indian maritime competitions It examines Indian Navy's regional roles within the broader framework of its diplomatic objectives in particular regions and looks at how keen regional states are to accept India as a crisis manager and would allow it to build a regional maritime security architecture The author also discusses state control over naval diplomatic roles and investigates if Indian

Navy can effectively hedge extra regional mainly Chinese involvement in the Indian Ocean An important study of India's naval prowess this book will be indispensable to students and researchers of political science international relations maritime and naval studies strategic studies geopolitics defence studies conflict studies diplomacy Indian Ocean studies South Asian studies and those interested in India China maritime rivalry

Illusions of Location Theory: Consequences for Blue Economy in Africa Francis Onditi, Douglas Yates, 2021-01-05 Illusions of Location Theory Consequences for Blue Economy in Africa questions the relevance of location theory in explaining the coastal hinterland continuum and the implications for the utilization of blue economy ecosystem in such a contested space in Africa It pays more attention to territorial contestations maritime disputes vulnerabilities of landlocked states and expansionist policies as displayed through spatial organizational regimes These areas of investigation have previously been largely studied from the narrow perspective of location unduly focusing on comparative advantages of distance while neglecting the influence of forces such as technology ideology and the power of mental mapping in spatial decision making This volume puts forward the argument that

the harmonious relationship between states and efficient exploitation of the blue economy ecosystem in ways that promote peace between states lies not only in the structural transformation of markets but also in bridging the spatial and social divide between the coastal and hinterland societies. Thus this work proffers possibilities for a holistic regime for managing Africa's coastal hinterland continuum through innovative strategies such as SMART blue economies and the infusion of the geopolitical dimension into the management of maritime and territorial diplomacy. The combination of theoretical and empirical analysis buttressed by in depth case studies of what works in the management of blue economy ecosystem and what does not work make this volume ideal for researchers students and practitioners interested in African regional studies African political economy political geography strategic military studies governance of seas and oceans and maritime science diplomacy

British Destroyers & Frigates Norman

Friedman,2012-10-22 A comprehensive survey of the design history and development of the Royal Navy's greyhounds of the sea WARSHIPS Magazine Since World War II the old categories of destroyer and frigate have tended to merge a process that this book traces back to the radically different Tribal class destroyers of 1936 It deals with the development of all the modern destroyer classes that fought the war looks at the emergency programs that produced vast numbers of trade protection vessels sloop corvettes and frigates then analyzes the pressures that shaped the post war fleet and continued to dominate design down to recent years Written by America's leading authority and featuring photos and ship plans it is an objective but sympathetic view of the difficult economic and political environment in which British designers had to work and benefits from the author's ability to compare and contrast the US Navy's experience Norman Friedman is renowned for his ability to explain the policy and strategy changes that drive design decisions and his latest book uses previously unpublished material to draw a new and convincing picture of British naval policy over the previous seventy years and more Includes photos

Security in Nigeria Caroline Varin, Freedom Onuoha, 2020-07-23 Nigeria is the most dynamic country on the African continent Yet the legacy of colonialism deep rooted corruption exposure to climate change and the proliferation of small arms have created a precarious security situation that holds back the country's potential for peace and prosperity Security in Nigeria explores the many security threats facing Nigeria and assesses the government's responses to date With contributors spanning three continents it provides an original and comprehensive analysis of old and new security threats and offers original solutions to address the crisis

The Eastern Fleet and the Indian Ocean, 1942-1944 Charles Stephenson, 2022-04-06 A study of the British Royal Navy's activities in the Indian Ocean during World War II led by Admiral Sir James Somerville The story of the British Eastern Fleet which operated in the Indian Ocean against Japan has rarely been told Although it was the largest fleet deployed by the Royal Navy prior to 1945 and played a vital part in the theatre it was sent to protect it has no place in the popular consciousness of the naval history of the Second World War So Charles Stephenson's deeply researched and absorbing narrative gives this forgotten fleet the recognition it deserves British pre war naval planning for the Far East is part of the story as is the disastrous loss of the battleship Prince of Wales and battlecruiser Repulse in 1941 but the body of the book focuses on the new fleet commanded by Admiral Sir James Somerville and its operations against the Japanese navy and aircraft as well as Japanese and German submarines Later in the war once the fleet had been reinforced with an American aircraft carrier it was strong enough to take more aggressive actions against the Japanese and these are described in vivid detail Charles Stephenson's authoritative study should appeal to readers who have a special interest in the war with Japan in naval history more generally and Royal Navy in particular Praise for The Eastern Fleet and the Indian Ocean 1942 1944 This meticulously researched outstandingly clear well written and absorbing account is long overdue and will most likely become a standard work The text is most helpfully supported by over 80 pages of detailed end notes referenced to each chapter and a detailed index This is not only a book for naval historians but also for anyone with

an interest in the War in the Indian Ocean region Highly recommended Military Historical Society I enjoyed this book it gives us an account of an often neglected part of the war at sea and of the achievements of Admiral Somerville who kept his fleet intact in the face of a potentially overwhelming opponent then was willing to acknowledge that his fleet needed to improve massively before it could take on the Japanese Dr John Rickard author and webmaster of the Military History Encyclopedia on the Web

Naval Warfare Jeremy Black,2017-01-05 The modern age of naval warfare began with the combination of steam power iron warships and modern artillery which launched an intense period of international competition Tracing naval warfare from the 1860s into the future noted historian Jeremy Black provides a dynamic account of strategy and warfare worldwide He focuses on the interplay of technological development geopolitics and resource issues to assess not only the role of leading powers but all those involved in naval conflict Emphasizing conflict and changes since 1945 and notably since the end of the Cold War the author considers possible future developments of navies their challengers and the geopolitics of maritime power

Air Power in the Indian Ocean and the Western Pacific Howard M. Hensel,2020-06-04 This book examines the security dynamics of the Indian Ocean and the Western Pacific concentrating upon an analysis and evaluation of the air power capabilities of the various powers active in the two regions The volume is designed to help improve understanding of the heritage and contemporary challenges confronting the global community in the Indian Ocean and the Western Pacific as well as to illuminate the policies of the various powers involved in the affairs of these regions and the military capabilities that are available in support of those policies The 16 individual chapters examine both the traditional and the non traditional threats that confront the various Indian Ocean and Western Pacific powers and assess the roles played by land based and naval fixed wing and rotary wing manned and unmanned aircraft as well as by offensively and defensively capable ballistic and cruise missiles in addressing these challenges In doing so the various chapters analyze and evaluate the air power doctrine capabilities deployment patterns and missions of the respective states In addition they assess the future issues challenges and responses involving air power as it acting in concert with other military instruments seeks to contribute to securing and promoting the interests of the state This book will be of much interest to students of air power strategic studies Asian and Middle Eastern politics and International Relations
