Military Psychology for Africa Gideon Van Dyk, 2016-03-17 Military Psychology for Africa is the first textbook of its kind from Africa. Turner, 2016-12-27 Now in its 151st edition, *The Statesman's Yearbook* continues to be the reference work of choice for accurate and reliable information on every country in the world. Covering political, economic, social, and cultural aspects, the Yearbook is also available online for subscribing institutions: <http://www.statesmansyearbook.com>. *The Contemporary German Navy as an Instrument of Foreign Policy* Moritz Brake, 2024-12-06 Since the Cold War and beyond the *Zeitenwende*, Germany has increasingly come to rely on its navy as an instrument of foreign policy. The German Navy supports comprehensive maritime security and ocean governance, and its missions not only reflect its own evolution but also change within Germany. This is a marked shift for the continental power Germany and forms a substantial component of its much broader maritime turn in the 21st century. Changes in strategic context, new security challenges, and Germany's evolving international role after reunification have altered the perception of the navy's utility. Its share in the Bundeswehr's personnel has grown, and the navy has seen proportionally higher investment or relatively less cuts owing to the post-Cold War peace dividend than either army or airforce. The author shows that the navy has markedly changed and become increasingly useful for Germany's foreign policy, something which in the stormy seas of geopolitical escalation of the *Zeitenwende* has already paid dividends. *The Statesman's Yearbook 2024* Palgrave Macmillan, 2024-01-03 Now in its 160th edition, *The Statesman's Yearbook* continues to be the reference work of choice for accurate and reliable information on every country in the world. Covering political, economic, social, and cultural aspects, the Yearbook is also available online for subscribing institutions. *The Parliamentary Debates (official Report)*. Great Britain. Committee ALC tasked to work in the Frontline States FLS to support independence in Southern Africa Pan Africanists in alliance with Brazzaville Casablanca and Monrovia groups approached continental unity differently and regionalism continued to be a major feature Africa's challenges were often magnified by the capitalist democratic versus communist socialist bloc rivalry but through Africa's use and leveraging of IGOs the UN UNDP UNECA GATT NIEO and others to advance development the formation of the African Economic Community OAU's evolution into the AU and other alliances belied collective actions even as Africa implemented decisions that required cooperation *uti possidetis* maintaining colonial borders containing secession intra and inter state conflicts rebellions and building RECs and a united Africa as envisioned by Pan Africanists worked better collectively

Why Paramilitary Operations Fail Armin Krishnan, 2018-04-25 This book analyzes U S pro insurgency paramilitary operations PMOs or U S proxy warfare from the beginning of the Cold War to the present and explains why many of these operations either failed entirely to achieve their objective or why they produced negative consequences that greatly diminished their benefits The chapters cover important aspects of what PMOs are the history of U S PMOs how they function the dilemmas of secrecy and accountability the issues of control criminal conduct and disposal of proxies as well as newer developments that may change PMOs in the future The author argues that the general approach of conducting PMOs as covert operations is inherently flawed since it tends to undermine many possibilities for control over proxies in a situation where the interests of sponsors and proxies necessarily diverge on key issues

The Economics of Defense Industry Thomas-Durell Young, 2023-10-17 This book on the economics of defence industry assesses a series of historical and contemporary case studies that consistently demonstrate the need for governments to recognise and thereafter factor the financial needs of a narrow industrial sector that is capital intensive technologically advanced and that requires a highly skilled labour force Since the end of the cold war Western governments have systematically reduced financial support to their domestic defence industry and have seemingly ignored planning and funding industrial mobilisation In all cases

government policy has been to encourage industries to consolidate capacity to become financially viable in a sector that has seen diminished demand The 2022 Russian invasion of Ukraine has caused Western governments to reassess their previous assumptions Efforts to increase industrial capacity have been met with the iron laws of economics whereby businesses need to show return on investments The chapters in this volume posit that efforts to rationalise industrial capacity and innovation to meet short term financial efficiencies inevitably results in limited expensive and long delays in increased production in times of international crisis This book serves as an essential guide for academics researchers and students interested in defence economics industrial economics international relations and industrial policy The chapters in this book were originally published in various issues of Defense Security Analysis
