between nationalism and expatriation He punctuates details of his naval war experiences with thoughtful observations on military combat Finally in his closing chapter Coda Closet Space McCormick attempts to make sense of old age and death This autobiographical account of a well lived life encompasses far more than a splendid teaching and literary career It will provide insight and good reading for those who know McCormick s scholarly work for students of the humanities and for the general public interested in vivid prose John McCormick is professor emeritus of comparative literature at Rutgers University and honorary fellow of English and literature at the University of York He is the author of *George Santayana A Biography* *Catastrophe and Imagination* *The Middle Distance* and *Fiction as Knowledge* Combating Security Challenges in the Age of Big Data Zubair Md. Fadlullah, Al-Sakib Khan Pathan, 2020-05-26 This book addresses the key security challenges in the big data centric computing and network systems and discusses how to tackle them using a mix of conventional and state of the art techniques The incentive for joining big data and advanced analytics is no longer in doubt for businesses and ordinary users alike Technology giants like Google Microsoft Amazon Facebook Apple and companies like Uber Airbnb NVIDIA Expedia and so forth are continuing to explore new ways to collect and analyze big data to provide their customers with interactive services and new experiences With any discussion of big data security is not however far behind Large scale data breaches and privacy leaks at governmental and financial institutions social platforms power grids and so forth are on the rise that cost billions of dollars The book explains how the security needs and implementations are inherently different at different stages of the big data centric system namely at the point of big data sensing and collection delivery over existing networks and analytics at the data centers Thus the book sheds light on how conventional security provisioning techniques like authentication and encryption need to scale well with all the stages of the big data centric system to effectively combat security threats and vulnerabilities The book also uncovers the state of the art technologies like deep learning and blockchain which can dramatically change the security landscape in the big data era **Chambers' Edinburgh Journal** ,1836
