Military, Emergency Response, Law Enforcement, and Security professionals face the challenge of detecting traces of explosives from multiple surfaces and locations — everyday. They need fast, accurate results to indicate if a person or object has been in contact with an explosive substance.

TRACE-PRO is a non-radioactive explosives trace detector designed to make it quick and easy to collect and analyse samples from suspect goods, materials or people.

TRACE-PRO is ready to go in less than three minutes and can detect and identify common explosives in seconds.

TRACE-PRO's unique IBS user design protects the system from contamination, providing the fastest clear down of any explosives trace detector in its class. This significantly increases the number of

Thanks to the revolutionary probe-based sampling inside technique, TRACE-PRO doesn't need gloves, swabs sticks or difficult to open lids. Swabs are quick and easy to replace and designed for multiple use.

An exclusive integrated evidence collection package provides further information, such as time/date stamp, complete alarm data, photographs, and GPS coordinates, all collected in a single file. Data can be downloaded from the unit by USB connection, providing an easy and secure way to store and access vital information for use against potential suspects.

The intuitive user interface is simple to understand and operate, providing the user through visual symbols, animations and alarms.
