Finally, because the results in Table 1 are not statistically significant, we cannot reject the null hypothesis that the effect of the 1990-1991 and 1992-1993 hurricanes on the number of deaths is zero. This is not surprising, given the fact that the number of deaths is a small number and the number of observations is small. The results suggest that the number of deaths is small and the number of observations is small.
