

ASSETS

Assets are resources owned by a business that have economic value. They are the result of investments made by the business or its owners. Assets are recorded on the balance sheet and are classified into current assets and non-current assets.

- **Current Assets:** These are assets that are expected to be converted into cash or sold within the next 12 months. Examples include cash, accounts receivable, inventory, and prepaid expenses.
- **Non-current Assets:** These are assets that are not expected to be converted into cash or sold within the next 12 months. Examples include property, plant, and equipment, and intangible assets like patents and trademarks.

Assets are measured in terms of their fair value, which is the price that would be received from the sale of an asset in an orderly transaction between market participants at the measurement date.

LIABILITIES

Liabilities are obligations of a business that arise from past transactions or events. They represent the resources of the business that are provided by creditors or lenders. Liabilities are recorded on the balance sheet and are classified into current liabilities and non-current liabilities.

- **Current Liabilities:** These are liabilities that are expected to be settled within the next 12 months. Examples include accounts payable, short-term debt, and accrued liabilities.
- **Non-current Liabilities:** These are liabilities that are not expected to be settled within the next 12 months. Examples include long-term debt and deferred tax liabilities.

Liabilities are measured in terms of their fair value, which is the price that would be received from the sale of a liability in an orderly transaction between market participants at the measurement date.

$$\text{ASSETS} = \text{LIABILITIES} + \text{EQUITY}$$

CONTRIBUTED CAPITAL

+ RETAINED EARNINGS

CONTRIBUTED CAPITAL

Contributed Capital represents the amount of capital that has been contributed by the owners of the business. It is recorded on the balance sheet and is classified into common stock and preferred stock.

- **Common Stock:** This is the most basic form of ownership in a company. It represents the ownership stake of the common shareholders.
- **Preferred Stock:** This is a type of ownership that typically has a fixed dividend rate and priority over common stock in the event of liquidation.

Contributed capital is measured in terms of its fair value, which is the price that would be received from the sale of the capital in an orderly transaction between market participants at the measurement date.

ACCUMULATED
PROFITS

- DIVIDENDS OR
DRAWINGS

RETAINED EARNINGS

Retained Earnings represent the portion of a company's profits that are retained within the company rather than being distributed to the shareholders as dividends. They are recorded on the balance sheet and are classified into accumulated profits and dividends or drawings.

- **Accumulated Profits:** These are the profits that have been retained by the company and are available for reinvestment or distribution.
- **Dividends or Drawings:** These are the amounts that have been distributed to the shareholders or withdrawn by the owners.

Retained earnings are measured in terms of their fair value, which is the price that would be received from the sale of the earnings in an orderly transaction between market participants at the measurement date.

EQUITY

Equity represents the ownership stake in a business. It is the sum of the contributed capital and retained earnings. Equity is recorded on the balance sheet and is classified into common equity and preferred equity.

- **Common Equity:** This is the ownership stake of the common shareholders.
- **Preferred Equity:** This is the ownership stake of the preferred shareholders.

Equity is measured in terms of its fair value, which is the price that would be received from the sale of the equity in an orderly transaction between market participants at the measurement date.

Accounting Stephen C. Shaefer,2001-06 The Demo Docs System of instruction replicates the classroom experience by providing more I get it moments outside of class We ve talked to tons of POA instructors and our editors have even taken the accounting course numerous times to figure out the following issue in this course that is consistent Students understand or get it right after you do a problem in class but as soon as they leave class with each passing hour their ability to do the problems again and complete their homework diminishes to the point of them either having to come to office hours to get help or they just quit and get behind in the course On top of this you can end up getting behind in the course as well in order to keep everyone on track The Demo Docs system helps to recreate the I get it moments outside of class keeping both you and the students on track **Financial Accounting** Jamie Pratt,1990-02 *Accounting Concepts and Applications* K.
