

This service manual contains detailed descriptions of all the typical repair and servicing procedures for this power tool.

Refer to the illustrated spare parts lists during all repair work. These lists show the installation position and order in which the individual parts and modules should be assembled.

Refer to the latest edition of the relevant parts list to check the part numbers of any replacement parts required.

A fault on the machine may be due to several causes. To help locate the fault, consult the chapter on "Troubleshooting" and the "STSHL Service Training System" for all function groups.

Refer to the "Technical Information" bulletins for engineering changes which have been introduced since publication of this service manual. Technical information bulletins also supplement the parts list and service manual until an updated edition is issued.

The special tools mentioned in the descriptions are listed in the chapter "Special Servicing Tools" of this manual. Use the part numbers to identify the tools in the STSHL Special Tools manual. It lists all the special servicing tools currently available from STSHL.

Symbols are included in the text and pictures for greater clarity. The meanings are as follows:

In the text:

- = Action to be taken as shown in the illustration above the text
- = Action to be taken but not shown in the illustration above the text

In the illustrations:

- Item pointer (short arrow)
- ➡ Direction of movement (long arrow)

(1) 4.2 = Reference to another chapter, i.e. to chapter 4.2 in this case

Service manuals and technical information bulletins are intended exclusively for the use of properly equipped repair shops. They must not be passed on to third parties.

Servicing and repairs are made considerably easier by mounting the machine on the assembly stand (3) 5010 890 3100. For this purpose, secure the support (2) 5010 850 1650 to the assembly stand with two screws (1) and washers.

The screws must not protrude, as they may damage the housing when the machine is clamped, depending on model.

This step is not necessary when using the new assembly stand 5010 890 3101, as the support is already mounted on it.

The clamping plate (1) 4238 890 2100 is secured to the support (2) with two M8x20 screws (3) and washers.
