Geoarchaeology and Radiocarbon Chronology of Stone Age Northeast Asia Vladimir V. Pitul'ko, Elena Yu. Pavlova, 2016-04-15 This English translation of a work previously published in Russian *Geoarkheologiya i radiouglerodnaya khronologiya kamennogo veka Severo Vostochnoi Azii* St Petersburg Nauka 2010 presents an overview of the Paleolithic archaeology of Northeast Asia with emphasis on geoarchaeological and radiocarbon based chronology Although archaeological investigations above the Arctic Circle began more than two hundred years ago access to and publication of findings has been difficult In *Geoarchaeology and Radiocarbon Chronology of Stone Age Northeast Asia* veteran researchers Vladimir V Pitul ko and Elena Yu Pavlova have gathered and analyzed the available data to provide comprehensive documentation of human occupation of continental territories far above the Arctic Circle in the late Neopleistocene also known as the Late Pleistocene era By using uncalibrated radiocarbon dating Pitul ko and Pavlova have been able to establish reliable correlations between the artifacts and phenomena being studied The increased number of radiocarbon age determinations for these Arctic sites is the most important data to come from the latest studies of Northeast Asia offering a significant opportunity for re evaluation of older materials in light of these new findings The authors include reporting on recent work performed at two of the most important sites in the region the mammoth cemetery site at Berelekh and the Yana Rhinoceros Horn Site

Cultural Intelligence for Stone-Age Brains Dennis Nørmark, 2013-08-07 Regardless of whether we want to deal with the Chinese integrate staff from India or work with various different regions in the same country cultural habits are there to trip us up Conventional thinking and lack of cultural intelligence constantly wreck masses of opportunities And if you are one of those expats here in the Kingdom of Denmark then you have bigger challenges than most According to studies around a third of highly skilled people who move to Denmark get negatively surprised by the cultural differences But that s not very surprising In the social sciences it s nothing new that Denmark and the rest of Scandinavia are significantly culturally different from a lot of other places in the world You can t find a country with more trust less religiousness a greater emphasis on equality but also a significant tendency to social reclusiveness and much more But why are they so different and how do you crack the code of Danish society Dennis N rmark has written an easy to read and practical book With specific examples funny anecdotes and thorough research he gives us a solid tool for collaboration and co existence First and foremost about encounters with Danes but he also gives examples from the whole world in this easy to read handbook about how we can take control of our most primitive instincts and turn cultural problems into opportunities The book is also available in Danish

The Nature of Culture Miriam N. Haidle, Nicholas J. Conard, Michael Bolus, 2016-01-19 This volume introduces a model of the expansion of cultural capacity as a systemic approach with biological historical and individual dimensions It is contrasted with existing approaches from primatology and behavioural ecology influential factors like differences in life history and demography are discussed and the different stages of the development of

cultural capacity in human evolution are traced in the archaeological record The volume provides a synthetic view on a the different factors and mechanisms of cultural development and b expansions of cultural capacities in human evolution beyond the capacities observed in animal culture so far It is an important topic because only a volume of contributions from different disciplines can yield the necessary breadth to discuss the complex subject The model introduced and discussed originates in the naturalist context and tries to open the discussion to some culturalist aspects thus the publication in a series with archaeological and biological emphasis is apt As a new development the synthetic model of expansion of cultural capacity is introduced and discussed in a broad perspective

English Examcart Experts, **Appropriated Pasts** Ian J. McNiven, Lynette Russell, 2005-09-08 Archaeology has been complicit in the appropriation of indigenous peoples' pasts worldwide While tales of blatant archaeological colonialism abound from the era of empire the process also took more subtle and insidious forms Ian McNiven and Lynette Russell outline archaeology's colonial culture and how it has shaped archaeological practice over the past century Using examples from their native Australia and comparative material from North America Africa and elsewhere the authors show how colonized peoples were objectified by research had their needs subordinated to those of science were disassociated from their accomplishments by theories of diffusion watched their histories reshaped by western concepts of social evolution and had their cultures appropriated toward nationalist ends The authors conclude by offering a decolonized archaeological practice through collaborative partnership with native peoples in understanding their past

Culture History and Convergent Evolution Huw S. Groucutt, 2020-07-23 This volume brings together diverse contributions from leading archaeologists and paleoanthropologists covering various spatial and temporal periods to distinguish convergent evolution from cultural transmission in order to see if we can discover ancient human populations With a focus on lithic technology the book analyzes ancient materials and cultures to systematically explore the theoretical and physical aspects of culture convergence and populations in human evolution and prehistory The book will be of interest to academics students and researchers in archaeology paleoanthropology genetics and paleontology The book begins by addressing early prehistory discussing the convergent evolution of behaviors and the diverse ecological conditions driving the success of different evolutionary paths Chapters discuss these topics and technology in the context of the Lower Paleolithic Earlier Stone age and Middle Paleolithic Middle Stone Age The book then moves towards a focus on the prehistory of our species over the last 40 000 years Topics covered include the human evolutionary and dispersal consequences of the Middle Upper Paleolithic Transition in Western Eurasia Readers will also learn about the cultural convergences and divergences that occurred during the Terminal Pleistocene and Holocene such as the budding of human societies in the Americas The book concludes by integrating these various perspectives and theories and explores different methods of analysis to link technological developments and cultural convergence
