century's fascination with Dutch painting as well as its doubts about an art that had long challenged traditional values. After showing how persistent tensions between high theory and low genre shaped criticism of novels and pictures alike, *Art of the Everyday* turns to four major novelists: Honoré de Balzac, George Eliot, Thomas Hardy, and Marcel Proust, who strongly identified their work with Dutch painting. For all these writers, Dutch art provided a model for training themselves to look closely at the particulars of middle class life. Yet even as nineteenth century novelists strove to create illusions of the real by modeling their narratives on Dutch pictures, Yeazell argues, they chafed at the model. A concluding chapter on Proust explains why the nineteenth century associated such realism with the past and shows how the rediscovery of Vermeer helped resolve the longstanding conflict between humble details and the aspirations of high art.
