that's more than any cryptocurrency. Are the best days behind us? After all, isn't marijuana legal in 30 states now? While that's true, it's still not legal at a federal level, which means hedge funds, investment banks, and other big players could not get their piece of the pie. But that's all about to change. And when JP Morgan, Citibank, get involved, we will see the biggest influx of money into the marijuana industry ever. Which means if you own certain marijuana stocks before federal legislation, then you could be set for some of the biggest gains ever seen in your lifetime. Because on November 6th, 6 states are fighting for legalization, which is the highest number we've seen at the same time in US history. If even half of these pass, that signals tens of billions flowing into the marijuana industry. In fact, Business Insider estimates the legal marijuana industry could be bigger than the soda industry. Think for a second, imagine if you'd invested in Coca-Cola back when it first went public. Or imagine cryptocurrency, except this time the companies actually create an in-demand product. In this book, you will discover the company which makes the one thing every single legal pot sale must include, making it a prime takeover target. The single best marijuana REIT available for regular investors, another stock similar to this, saw gains of over 9000% in just 7 months. Jeff Sessions was previously called the marijuana industry's biggest enemy, and why he is no longer an obstacle. President Trump's true stance on pot, which the mainstream media won't tell you about. The Home Depot of the marijuana industry and a prime takeover target for giant retailers, potential 10X returns from this one stock. An advanced Canadian grower, currently trading under 1.3 stocks, you would have no idea would benefit from a growing marijuana industry. This penny stock just partnered with a leading European grower, which could result in the biggest growth of all. The company which could become the McDonald's of the Marijuana Industry, and much, much more. The industry is set to grow by 5X in the next decade, which puts it at around 300 billion, the same size as the beer industry. You won't see those kinds of gains in tech stocks or pharmaceutical companies. So for investors who get in early, these will be life-changing gains. For those who sat on the sideline, it'll be just another, if only I'd invested, then moment. So if you want to profit from the biggest investment opportunity of the past 10 years, then scroll up and click 'add to cart'. P.S. During the first 6 months of the year, the marijuana stock index went up by 220%, the S&P 500 only went up 10%.
