Green Parties in Transition Paul Lucardie, 2016-12-05 When green parties emerged in the 1980s not only did they question established ideas about nature and economic growth they also challenged the iron law of Roberto Michels that all parties inevitably follow a similar path towards informal concentration of power and oligarchy Grass roots democracy was both an ideological tenet and an organizational project for practically all green parties These days the greens have lost their glamour and innocence They have grown up and even joined governing coalitions in several countries Did they leave grass roots democracy by the roadside on the way to power This book investigates to what extent green parties have remained true to their identity or have been transformed Country specialists analyze the development of green parties in 14 countries across the world not only Western Europe but also Australia Canada New Zealand and the United States These analyses also offer clues on broader questions about party types and party change in contemporary democracies On the Left in

America Henry Bengtson, 1999 Previously available only in an out of print Swedish edition published in 1955 Henry Bengtson's firsthand account deals with what historian Dag Blanck calls the other Swedish America Swedish immigrants in general were conservative but Bengtson and others most notably Joe Hill joined the working class labor movement on the left primarily as Debsian socialists although their ranks included other socialists communists and anarchists Involved in the radical labor movement on many fronts Bengtson was the editor of Svenska Socialisten from 1912 until he dropped out of the Scandinavian Socialist Federation in 1920 Even after 1920 however his sympathies remained with the movement he had once strongly espoused **Culture and Customs of Sweden** Byron J. to play their part in the political process yet the role of money in politics is arguably the biggest threat to democracy today This global threat knows no boundaries and is evident across all continents from huge corporate campaign donations in the United States and drug money seeping into politics in Latin America to corruption scandals throughout Asia and Europe Attempts to tackle these challenges through political finance laws and regulations are often undermined by a lack of political will or capacity as well as poorly designed and enforced measures This Handbook addresses the problems of money in politics by analysing political finance regulations around the world and providing guidance for reform The chapters are divided by region each assesses the current state of regulations in relation to its challenges and offers a series of recommendations to tackle the identified shortcomings This contextual approach has the benefit of revealing regional trends and patterns An additional chapter focuses on gender reflecting the reality that women remain grossly under represented in politics and how the increasing influence of money in politics perpetuates this inequality

Parties and Parliaments in Southeast Asia

Roland Rich,2014-06-23 Political parties are an essential ingredient in a modern democracy They are also seen as the least trusted and most problematic institution in most democratic systems While there have been attempts to strengthen parties through institutional design and capacity building a new strategy has been to quarantine them from parts of parliament Within the space of a few years the Philippines Thailand and Indonesia implemented designs for parliamentary representation that proscribed the established political parties from a parliamentary chamber or part thereof Using these three countries as case studies this book traces the historical context for institutional designs the intentions behind them and their implementation through at least one full parliamentary term It investigates the conceptual architecture of the non partisan designs identifying corporatism as one discredited alternative and championship as another While there is a yearning for exemplary people as representatives the designers have struggled to find a successful means of having these champions elected to office The book concludes that non partisan chambers based on the evidence to date are not viable This book is of interest to scholars of Southeast Asian Politics Party Politics Governance Institutions and Democracy **Paying for Politics** Anthony Butler,2010 Includes bibliographical references and index **Political Parties in Africa** Sebastian Elischer,2013-09-09 This book examines the effects of ethnicity on party politics in ten African countries Sebastian Elischer finds that five party types exist the mono ethnic the ethnic alliance the catch all the programmatic and the personalistic party He uses these party types to show that the African political landscape is considerably more diverse than conventionally assumed **The Dilemma of Consent to International Arbitration in Investment Agreements without a Forum** Fernando Tupa,2023-02-17 Fernando Tupa addresses the sometimes overlooked yet fundamental principle that consent to international arbitration is forum specific and explores its significance and practical consequences for investment tribunals The author proposes that if there is only consent in principle to international arbitration by the host State in an investment agreement due to the lack of a forum or the unavailability of the forum contemplated therein a foreign investor would not be entitled to unilaterally initiate an investment claim against the host State under said agreement absent a subsequent agreement between the foreign investor and the host State on an arbitral forum He also draws some conclusions and warns against the dangerous consequences of ignoring this basic principle ALI-ABA's Practice Checklist Manual on Advising Business Clients II ,2000 Disk contains forms and checklists from the printed text **Ideas in Marketing: Finding the New and Polishing the Old** Krzysztof Kubacki,2014-10-25 Founded in 1971 the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory research and practice Among its services to members and the community at large the Academy offers conferences congresses and symposia that attract delegates from around the world Presentations from these events are published in this Proceedings series which offers a comprehensive archive of volumes reflecting the evolution of the field Volumes deliver cutting edge research and insights complimenting the Academy s flagship journals the Journal of the Academy of Marketing

Science JAMS and AMS Review Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science This volume includes the full proceedings from the 2013 Academy of Marketing Science AMS Annual Conference held in Monterey California entitled Ideas in Marketing Finding the New and Polishing the Old The New Color Line Paul Craig Roberts, Lawrence M. Stratton, Jr., 1997-05-01 In The New Color Line authors Paul Craig Roberts and Lawrence M Stratton boldly challenge the affirmative action policies that have governed America for the past thirty years The authors show that equality under the law has given way to legal privileges based on race and gender Liberal society is being lost along with the presumption of goodwill that is the basis of democracy The New Color Line offers an explanation for these ironic outcomes judicial and regulatory edicts have taken the place of statutory law accountable to the people and coercion has replaced persuasion This happened because elites regarded democracy as the problem not the solution **Ararat** ,1915 Gunnar Asplund's Gothenburg Nicholas Adams, 2015-01-14 In the west coast port city of Gothenburg Sweden the architect Gunnar Asplund built a modest extension to an old courthouse on the main square 1934 36 Judged today to be one of the finest works of modern architecture the courthouse extension was immediately the object of a negative newspaper campaign led by one of the most noted editors of the day Torgny Segerstedt Famous for his determined opposition to National Socialism he also took a principled stand against the undermining of urban tradition in Gothenburg Gothenburg s problems with modern public architecture though clamorous and publicized throughout Sweden were by no means unique In Gunnar Asplund s Gothenburg Nicholas Adams places Asplund s building in the wider context of public architecture between the wars setting the originality and sensitivity of Asplund s conception against the political and architectural struggles of the 1930s Today looking at the building in the broadest of contexts we can appreciate the richness of this exquisite work of architecture This book recaptures the complex magic of its creation and the fascinating controversy of its completed form
