Standard Treatment Guidelines For Primary Hospitals Ethiopia:

Joint external evaluation of the International Health Regulations (2005) core capacities of South Sudan World Health Organization, 2025-09-30 South Sudan conducted its second Joint External Evaluation JEE of its International Health Regulations IHR core capacities from 16 to 20 September 2024. The evaluation aimed to identify areas for improvement and strengthening of the essential capacities needed to effectively detect, prevent, and respond to public health emergencies. The evaluation spanned 19 technical areas broadly categorized under Prevent, Detect, Respond, and Other IHR-related hazards, with the overarching goal of guiding the nation's development of its comprehensive National Action Plan for Health Security. This JEE was a collaborative effort involving national experts and international stakeholders, including the World Health Organization (WHO) and technical experts from various countries and institutions.

Rural Health - Investment, Research and Implications Christian Rusangwa, 2023-11-15 In this eye-opening exploration, the authors bring together years of research on the ground, insights, and a vision for the future of rural health. Through engaging narratives, data-driven analysis, and thought-provoking case studies, this book sheds light on the critical issues that affect the well-being of millions living outside urban centers. Rural Health Investment, Research, and Implications is an essential read for healthcare professionals, policymakers, researchers, and anyone passionate about the well-being of rural communities. It offers a roadmap to a brighter, healthier future for those often left in the shadows, highlighting the immense potential of rural America and the transformative power of investment and research in shaping a more equitable healthcare landscape. Join the conversation, be part of the solution, and uncover the untapped potential of rural health. This book is a call to action for a healthier, more inclusive future for all.

Joint external evaluation of the International Health Regulations (2005) core capacities of Ethiopia World Health Organization, 2025-08-20 The primary goal of the Joint External Evaluation (JEE) in Ethiopia was to assess capacities in 19 technical areas to comply with the International Health Regulations (2005) IHR. The exercise was held from 18 to 22 September 2023 in Bishoftu. The evaluation showed areas for improvement but importantly, areas that provided a strong foundation for the work of health security preparedness, including application of the whole-of-government approach in IHR implementation due to strong political will, presence and availability of several legal instruments, policies, and guidelines for IHR implementation, significant partner support towards a strong health security preparedness structure in the country, existence of a very strong multisectoral coordination mechanism for public health response, the presence of a very robust One Health platform at both national and regional levels, strong robust IHR technical leadership and stewardship. There is recognized capacity to implement IHR in all assessed 19 technical areas to achieve the required minimum core capacities. There is a need for continuous training of key cadres across the relevant sections and sectors, and this will go a long way to strengthen the existing mechanisms and capacities of Ethiopia to respond to public health events and major public health risks.
