Philosophy in Stan Brakhage's Dog Star Man Alberto Baracco, 2019-03-01 This book shows how a masterpiece of experimental cinema can be interpreted through hermeneutics of the film world As an application of Ricurian methodology to a non narrative film the book calls into question the fundamental concept of the film world Firmly rooted within the context of experimental cinema Stan Brakhage's Dog Star Man was not created on the basis of a narrative structure and representation of characters places and events but on very different presuppositions The techniques with which Brakhage worked on celluloid and used frames as canvases as well as his choice to make the film without dialogue and sound exhort the interpreter to directly question the philosophical language of moving images

Telecommunications in Africa, 1996 **Gramophone Compact Disc Digital Audio Guide and Catalogue**, 1987 **New York Magazine**, 1984-12-24 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea

Audio, 1995 The Rain Watcher Tatiana de Rosnay, 2018-10-30 The first new novel in four years from the beloved superstar author of Sarah's Key a heartbreaking and uplifting story of family secrets and devastating disaster set against a Paris backdrop fraught with revelations and resolutions An absorbing tale of family secrets from the author of Sarah's Key People magazine Hypnotic passionate ominous and tender unforgettable Jenna Blum New York Times and internationally bestselling author of Those Who Save Us Linden Malegarde has come home to Paris from the United States It has been years since the whole family was all together Now the Malegarde family is gathering for Paul

Linden's father's 70th birthday. Each member of the Malegarde family is on edge holding their breath afraid one wrong move will shatter their delicate harmony. Paul, the quiet patriarch, an internationally renowned arborist obsessed with his trees and little else, has always had an uneasy relationship with his son. Lauren, his American wife, is determined that the weekend celebration will be a success. Tilia, Linden's blunt older sister, projects an air of false fulfillment. And Linden himself, the youngest, uncomfortable in his own skin, never quite at home no matter where he lives, an American in France and a Frenchman in the U.S., still fears that despite his hard-won success as a celebrated photographer, he will always be a disappointment to his parents. Their hidden fears and secrets slowly unravel as the City of Light undergoes a stunning natural disaster and the Seine bursts its banks and floods the city. All members of the family will have to fight to keep their unity against tragic circumstances. In this profound and intense novel of love and redemption, de Rosnay demonstrates all of her writer's skills, both as an incredible storyteller but also as a soul seeker.

Speaking Beyond Earth Paul E. Quast, David Dunér, 2024-04-03. Since the dawn of the Space Age, small cohorts of humanity have broadcast signals towards other stars, fabricated space-time capsules to speak for Earth, aboard interstellar probes deposited collections of space oddities on other astronomical bodies and permanently incised the memory of our species across the deep-time legacy of the Sol System. Many of these purposeful messages are the consequence of age-old behaviors, traditions, and material practices using modern aerospace technologies. Most attempt to preserve narratives of human experience in social exchange devices for imagined exotic audiences. Looking back upon this accumulative history of messaging from Earth, how do we begin to interpret such an eclectic portrait of Earth for ourselves? Surveying and cataloguing the variety of these artifacts through a series of interdisciplinary essays and visual documentation, this volume chronicles our changing relationships, customs, and assumptions made within this material culture for our own eyes. What do these autobiographical accounts tell us about Terrans and our minds set against the backdrop of our planetary history?

Since the 1980s, music videos have been everywhere, and today almost all of the most-viewed clips on YouTube are music videos. However, in academia, music videos do not currently share this popularity. *Music Video After MTV* gives music video its due academic credit by exploring the changing landscapes surrounding post-millennial music video. Across seven chapters, the book addresses core issues relating to the study of music videos, including the history, analysis, and audiovisual aesthetics of music videos. Moreover, the book is the first of its kind to truly address the recent changes following the digitization of music video, including its changing cycles of production, distribution, and reception, the influence of music videos on other media, and the rise of new types of online music video. Approaching music videos from a composite theoretical framework, *Music Video After MTV* brings music video research up to speed in several areas; it offers the first account of the research history of music videos, the first truly audiovisual approach to

music video studies and it presents numerous inspiring case studies ranging from classics by Michel Gondry and Chris Cunningham to recent experimental and interactive videos that interrogate the very limits of music video **Electronic Music School** Will Kuhn,Ethan Hein,2021-06-18 This book offers a new practical blueprint for teachers wanting to teach music technology to secondary age students Authors and veteran music educators Will Kuhn and Ethan Hein give readers all the practical tools they need to open their own electronic music programs Encyclopedia of Motion Picture Sound Marty McGee,2010-09-29 Ever since 1927 when The Jazz Singer broke the silence of the silver screen sound has played an integral role in the development and appreciation of motion pictures This encyclopedia covers the people processes innovations facilities manufacturers formats and award winning films that have made sound such a crucial part of the motion picture experience Every film that has won a sound related Academy Award is included here with detailed critical commentary Every sound mixer or editor who has been honored by the Academy has his or her own entry and filmography and career biographies are provided for key developers including Jack Foley Ray Dolby George Lucas and more
