What made him abuse his newly wedded wife? Why did his son become an aggressive child? There is no way I would have expected this from such a considerate and loving person. Everything in their relationship seemed to be thriving. It may be possible that we never know someone until they are pushed to the point in which he or she are forced to act in response to a situation. I witnessed this happening and never could have predicted what transpired.

My Aunt Natalie (not her real name) has always been an independent iron-willed woman. Natalie encountered a man named Ricky (not his real name) who was selfless, candid, and courteous. During their courtship Ricky was a perfect gentleman. They went out to drink at bars, attended social gatherings, and celebrated holidays with each other's families. Within a year Natalie and Ricky fell in love and decided to get married. Shortly after the wedding Natalie became pregnant and gave birth to my cousin Justin (not his real name). Everything seemed blissful until Natalie was able to get back on her feet and involve herself in recreational activities once more.

Ricky did not have a formal education. He crossed the threshold of America only one year before he married Natalie, so it became very challenging for him to find a job. Ricky desired that Natalie stay home and tend to the responsibility of raising her son, but Natalie disagreed with Ricky's views. Natalie nurtured and cared for her child, but on occasion she would attend a local tavern or social gathering. Ricky eventually became fed up with what he felt was blatant neglect for his aspirations of having a similar household to those of his homeland, Peru. In Ricky's family wives cater to the needs of their immediate family without much personal fulfillment.

But if you're like many people, you may find interpreting and writing about cases mystifying, challenging, or downright frustrating. In *The Case Study Handbook*, William Ellet presents a potent new approach for analyzing, discussing, and writing about cases. Early chapters show how to classify cases according to the analytical task they require: solving a problem, making a decision, or forming an evaluation, and quickly establish a base of knowledge about a case. Strategies and templates, in addition to several sample Harvard Business School cases, help you apply the author's framework. Later in the book, Ellet shows how to write persuasive case analytical essays based on the process laid out earlier. Extensive examples of effective and ineffective writing further reinforce your learning. The book also includes a chapter on how to talk about cases more effectively in class.
