Startup Rising The Entrepreneurial Revolution Remaking The Middle East Hardcover:

Startup Rising Christopher M. Schroeder, 2013-08-13 Startup Rising presents a surprising look at the surge of entrepreneurship that accompanied the uprisings in the Middle East and why it is the new best place for Western investment and opportunity. Despite the world's relation at the Arab Spring, shockingly little has changed politically in the Middle East even frontliners Egypt and Tunisia continue to suffer repression, fixed elections and bombings while Syria descends into civil war. But in the midst of it all, a quieter revolution has begun to emerge, one that might ultimately do more to change the face of the region: entrepreneurship. As a seasoned angel investor in emerging markets, Christopher M. Schroeder was curious but skeptical about the future of investing in the Arab world. Travelling to Dubai, Cairo, Amman, Beirut, Istanbul and even Damascus, he saw thousands of talented, successful and intrepid entrepreneurs all willing to face cultural, legal and societal impediments inherent to their worlds. Equally important, he saw major private equity firms, venture capitalists and tech companies like Google, Intel, Cisco, Yahoo, LinkedIn and PayPal making significant bets despite the uncertainty in the region. With Startup Rising, he marries his own observations with the predictions of these tech giants to offer a surprising and timely look at the second, stealth revolution in the Middle East, one that promises to reinvent it as a center of innovation and progress.

SUMMARY - Startup Rising: The Entrepreneurial Revolution Remaking The Middle East By Christopher M. Schroeder Shortcut Edition, 2021-05-31 Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. As you read this summary, you will discover the Middle East from a perspective you may not have suspected. Christopher Schroeder, with his experience as an entrepreneur, introduces you to the entrepreneurial world of a region of the world known more for its political instability than for its economic dynamism. Yet he shows that this region has nothing to envy to the rest of the world when it comes to entrepreneurship and innovation. You will also learn that entrepreneurship can help change the world; how the changes at work emanate above all from individual initiatives; why the Arab Spring is a symptom of profound upheavals in society; that the businesses created in the Middle East are no different from those in Silicon Valley; that Islam is far from being incompatible with entrepreneurship. In spite of the various Arab springs, little has changed at the political level in the Middle East. It is a different story when it comes to entrepreneurship and access to technology. Schroeder has witnessed in recent years a movement in this direction on the part of investors who dare to move beyond uncertainty and instability. A second revolution is underway. It will transform the region into a center of economic opportunity. Buy now the summary of this book for the modest price of a cup of coffee. SUMMARY Edition
