Monthly Labor Review, 1977 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews Treating the Criminal Offender Alexander B. Smith, Louis Berlin, 2013-11-11 The second edition of *Treating the Criminal Offender* was written in an atmosphere of disillusionment and severe criticism of the traditionalist approach to treatment As crime rates soared the voices of the critics rose in volume and intensity And so this third edition revised toward the end of the decade of the 1980s embodies the shift in emphasis from rehabilitating the offender to protecting the community This shift in our opinion does not reject the goal of changing the offender so as to effect his reintegration into society it uses the strategy of intensive supervision and surveillance only to effect the desired goal The use of electronics to monitor the offender's whereabouts and the swift application of punitive measures following the awareness of any violation are extrinsic techniques of control It is our opinion that for the deep more lasting changes in behavior some form of casework counseling and or psychotherapeutic intervention is essential We are the cohorts who believe in the effectiveness of such treatment modalities when and if applied to the right target population at the appropriate time Document Retrieval Index, 1976 **Correctional Officers in America** Stephen Paul Walters, Tom Caywood, 2006 This study examines the social science research which describes the occupational environment of correctional officers Abandoning common popular misconceptions of prison guards the authors analyze who correctional officers are how they are trained and the common problems that they share while maintaining security in America's prisons This study examines the role of prisons in society today how that role has changed over time and how correctional officers have been required to change as well The formal structure of prisons is explored and a wide ranging discussion of the interpersonal problems encountered by correctional officers is presented including their interaction with inmates the psychological problems that may result from this interaction and the manner in which correctional officers adapt to these pressures Correctional officers are shown to be an increasingly diverse group of trained professionals sharing many commonalities yet also differing in many significant ways **Impact of Unemployment on Children and Families** United States. Committee on the Judiciary, *Encyclopedia of Community Corrections* Shannon M. Barton-Bellessa,2012-05 In response to
recognition in the late 1960s and early 1970s that traditional incarceration was not working alternatives to standard prison
settings were sought and developed One of those alternatives community based corrections had been conceived in the 1950s
as a system that might prove more progressive humane and effective particularly with people who had committed less
serious criminal offenses and for whom incarceration with constant exposure to serious offenders and career criminals might
prove more damaging than rehabilitative The alternative of community corrections has evolved to become a substantial part
of the criminal justice and correctional system spurred in recent years not so much by a progressive humane philosophy as
by dramatically increasing prison populations court orders to fix overextended prison settings and an economic search for
cost savings *Encyclopedia of Community Corrections* explores all aspects of community corrections from its philosophical
foundation to its current inception Features a thematic reader s guide in the front matter groups entries by broad topical or
thematic areas to make it easy for users to find related entries at a glance a chronology in the back matter helps students put
individual events into broader historical context a glossary provides students with concise definitions to key terms in the field
a resource guide to classic books journals and web sites along with the further readings accompanying each entry guides
