Difficult Attachments Kathryn E. Goldfarb, Sandra Bamford, 2024-10-11 Anthropologists have long considered kinship as the basis for social solidarity Indeed the idea that kinship is grounded in positive sociality has found its way into most anthropological accounts and has served as an orienting framework directing decades of scholarly research But what about when it is not What about instances when kinship is anything but warm and fuzzy but is characterized instead by neglect violence negative affect or a lack of nurturance and care In the three interlinked sections of this volume the view that kinship is about solidarity and care is challenged by exploring how kin relations are not only about connection and inclusion but also about disconnection exclusion neglect and violence Kinship relationships that feel positive and good take a great deal of perseverance and work there is nothing natural about kinship ties as being based on positive sociality In these chapters the contributors take seriously the contingency of kinship relations the moments when kinship breaks down or is a source of suffering and how this prompts scholars to develop new theoretical and methodological perspectives *Capitalism Beyond Mutuality?* Subramanian Rangan, 2018 Trust in business is declining because business has focused too much on performance and too little on progress From climate change to unfair compensation and technology related fears our list of concerns is large and growing This text explores how economic actors might evolve their paradigms preferences and practices

Anyanwu, 2021-08-10 Through in depth qualitative analysis of data from archives and research sites in Nigeria the United Kingdom and the United States The Making of Mbano British Colonialism Resistance and Diplomatic Engagements in Southeastern Nigeria 1906-1960 argues that African people in Mbano consistently and fearlessly invoked their pre colonial socio cultural political and economic values in resisting

scrutinizing and ultimately negotiating with the British colonial government In investigating Africa s complex and diverse engagements with the British through the lens of the Mbano colonial experience Ogechi E Anyanwu highlights the fascinating intersection of foreign and indigenous notions of community culture political economy religion and gender in shaping the Mbano colonial identity Anyanwu carefully introduces readers to a wider variety of people in colonial Mbano who contributed to the historical experience of Southeastern Nigeria and whose names do not appear in history books *The Routledge Handbook to Rethinking Ethics in International Relations* Birgit Schippers,2020-05-21 Discussing cutting edge debates in the field of international ethics this key volume builds on existing work in the normative study of international relations It responds to a substantial appetite for scholarship that challenges established approaches and examines new perspectives on international ethics and that appraises the ethical implications of problems occupying students and scholars of international relations in the twenty first century The contributions written by a team of international scholars provide authoritative surveys and interventions into the field of international ethics Focusing on new and emerging ethical challenges to international relations and approaching existing challenges through the lens of new theoretical and methodological frameworks the book is structured around five themes New directions in international ethics Ethical actors and practices in international relations The ethics of climate change globalization and health Technology and ethics in international relations The ethics of global security Interdisciplinary in its scope this book will be an important resource for scholars and students in the fields of politics and international relations philosophy law and sociology and a useful reference for anyone who wishes to acquire ethical competence in the area of international relations **The Quest for Professionalism** Georges Romme,2016-01-29 Early pioneers in management thinking such as Henri Fayol and Peter Drucker conceived of management as a science based professional activity that serves the greater good Today however many organizations are managed by people demonstrating anything but professionalism resulting in mismanagement of risks as well as a one dimensional focus on short term results The key thesis in this book is that The Quest for Professionalism must be revitalized because the societal costs and damage caused by managerial amateurism are huge The book is about how to address this grand challenge for example by exploring whether and how a shared professional purpose and a professional body of knowledge can be developed While most work in this area has previously focused on management education The Quest for Professionalism adopts an inside out approach implying management scholarship is the driving force behind any intrinsic transformation of the profession at large Without management scholars playing an active role in advancing science based professionalism in the mould of engineering and medicine any attempt to professionalize management practice is doomed to fail Moreover Georges Romme demonstrates the professionalization quest has to move away from the idea of management being confined to a few people at the top toward management as a technology for distributing power and leadership throughout the organization **Future-oriented science education for agency and sustainable development** Antti Laherto,Olivia

Lusch, Stephen L. Vargo, 2014-12-18 Expanding on the editors award winning article *Evolving to a New Dominant Logic for Marketing* this book presents a challenging new paradigm for the marketing discipline This new paradigm is service oriented customer oriented relationship focused and knowledge based and places marketing once viewed as a support function central to overall business strategy Service dominant logic defines service as the application of competencies for the benefit of another entity and sees mutual service provision rather than the exchange of goods as the proper subject of marketing It moves the orientation of marketing from a market to philosophy where customers are promoted to targeted and captured to a market with philosophy where the customer and supply chain partners are collaborators in the entire marketing process The editors elaborate on this model through an historical analysis clarification and extension of service dominant logic and distinguished marketing thinkers then provide further insight and commentary The result is a more comprehensive and inclusive marketing theory that will challenge both current thinking and marketing practice Best Business Schools' Admissions Secrets Chioma Isiadinso, 2014-08-05 The top secrets to getting into the best MBA programs from a leading industry expert Top MBA programs reject more than 80 percent of their applicants but author Chioma Isiadinso s admissions consulting firm has successfully guided 90 percent of her students into the best business schools around the world As a former Admissions Board Member Isiadinso offers insider tips and strategies to help applicants get into the school of their choice by building and promoting their personal brand This revised and updated edition now offers the do s and don ts of social media networking sample admissions essays that worked an international perspective for global admissions appeal **Capitalism--its Nature and its Replacement** Graham Priest, 2021-10-14 In this third decade of the 21st century deep problems plague our world Many people lack adequate nutrition health care and education because while there is enough wealth for everyone to meet these basic needs most of it is tightly controlled by precious few Global warming causes droughts floods rising sea levels and soon the forced migrations of millions of people In this book philosopher Graham Priest explains why we find ourselves in this situation defines the nature of the problems we face and explains how we might solve and move beyond our current state The first part of this book draws on Buddhist philosophy Marx s analysis of capitalism and their complementary role in explaining our present crisis and the events that led us here In the second part of the book Priest turns to the much harder question of how one might go

about creating a more rational and humane world Here he draws again on Buddhist and Marxist ideas as well as some key aspects of anarchist thought His discussion of the need for bottom up control of production power ideology and an emerging awareness of our interdependence is a must read for anyone who cares about the future of the planet and our latent capacity to care for each other Key Features Explains the necessary elements of Marxist Buddhist and anarchist thought no background knowledge of political theory or Buddhism is necessary Shows how Buddhist and Marxist notions of persons are complementary Convincingly shows capitalism s role in creating current socio economic problems Provides an analysis of the corrosiveness of top down power structures and why they should be eliminated in a post capitalist state Discusses capitalism s role in war environmental degradation and race and gender based oppression The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution CC BY 4.0 license
