

MONTGOMERY COUNTY ENVIRONMENTAL SERVICES

Drinking Water Quality Report

for the 2018 Testing Year

Reinvesting in Vital Infrastructure

DIRECTOR
FAT TURNBULL

I am pleased to say that Montgomery County has met or exceeded all state and federal drinking water quality standards for the 2018 testing year. This says a lot about our dedication to protecting public health and serving our citizens. As always, Montgomery County is committed to continued investment in our water system, and to providing safe, affordable water for all citizens.

We recently passed a new rate structure and we are using the revenue from that to actively reinvest in our aging infrastructure. Most of our underground infrastructure is over 50 years old and it is time to reinvest. We also updated our rate structure to provide the revenue necessary for the long-term

maintenance of our system, which we estimate will cost about \$750 million over the next 20 years. We also began work on the Sanitary Conveyance and Treatment Improvement project for our Western Regional Wastewater Treatment Plant, which is the largest infrastructure project undertaken by our department in more than twenty years.

Last year, we proactively sent a notice to all customers about extremely low amounts of PFAS (per- and polyfluoroalkyl substances), which had been detected in treated drinking water at the City of Dayton's water treatment plant. The City of Dayton is our water provider; in other words, we purchase all of our treated drinking water from the City and then distribute it to our customers. The City routinely tests drinking water and the latest tests show PFAS readings of 7-13 parts per trillion well below the U.S. EPA's health advisory limit of 70 parts per trillion. The City will continue to use the latest available technology to proactively monitor and safeguard our drinking water in coordination with the Ohio EPA, and we will continue to share new information with our customers as it becomes available.

This report includes general health information, water quality test results, and information about public participation opportunities. I hope reviewing this information gives you greater insight into your local water source, and helps you appreciate the hard working people who keep your water clean, safe, and reliable.

Sincerely,

Director Patrick Turnbull, P.E.
