Composition of Commercial Fertilizers Sold in this State ,1896 *The Social Construction of the US Academic Elite* Stephanie Beyer, 2021-09-05 This book explores the stark stratification and struggles over classifications in US academia from a relational perspective looking beyond material differences and tracing its roots to symbolic power relations Based on a mixed methods study drawing on both interview and quantitative data it offers an account of the workings of academia shedding light on the structures that permit elite departments to define categories and impose legitimate scientific definitions to which the non elite must adhere With a focus on two scientific disciplines the author shows how the translation of objective structures into mental structures establishes a relationship of power with regard to the definition of scientific categories thus determining access to resources and opportunities to participate and move within the academic field A study of the unequal intrusion of economic logics into the academic domain this volume will appeal to scholars policy makers and institutional leaders with interests in higher education inequality within science academic careers power relationships and competition in the academy *Supplement ... to the Public Health Reports* ,1927 The National Union Catalog, Pre-1956 Imprints ,1978 *Federal Register* ,1979-03 **Code of Federal Regulations** ,1949 Special edition of the Federal Register containing a codification of documents of general applicability and future effect with ancillaries **Shoe and Leather Reporter** ,1890 **Primates** Kurt Benirschke, 2012-12-06 This conference represents the first time in my life when I felt it was a misfortune rather than a major cause of my happiness that I do conservation work in New Guinea Yes it is true that New Guinea is a fascinating microcosm it has fascinating birds and people and it has large expanses of undisturbed rainforest In the course of my work there helping the Indonesian government and World Wildlife Fund set up a comprehensive national park system I have been able to study animals in areas without any human population But New Guinea has one serious drawback it has no primates except for humans Thus I come to this conference on primate conservation as an underprivileged and emotionally deprived observer rather than as an involved participant Nevertheless it is easy for anyone to become interested in primate conservation The public cares about primates More specifically to state things more realistically many people care some of the time about some primates Primates are rivaled only by birds pandas and the big cats in their public appeal For some other groups of animals the best we can say is that few people care about them infrequently For most groups of animals no one cares about them ever *The American and English Encyclopaedia of Law* David Shephard Garland, James Cockcroft, Lucius Polk McGehee, Charles Porterfield, 1904 **Bulletin of the Virginia State Library** ,1915 A Bibliography of Virginia Earl Gregg Swem, Virginia State Library, 1916 **A Bibliography of Virginia ...** Virginia State Library, 1916 Contents pt 1 Titles of books in the Virginia State Library which relate to Virginia and Virginians the titles of those books written by Virginians and of those printed in Virginia but not including published

López Damián,2020-08-01 This book examines tensions and challenges in the professional lives and identities of contemporary academics Drawing on extensive interviews conducted over seven years with academics in the United States and the United Kingdom the authors analyze the experiences of four types of academics as they respond and adjust to the demands of neoliberalism part time faculty full time faculty department heads and chairs and deans While critical of this phenomenon *University Management the Academic Profession and Neoliberalism* also recognizes that neoliberalism cannot be driven out of academia easily or without serious consequences such as a perilous loss of revenue and public support Instead it works to shed light on the complex sometimes contradictory sometimes complementary relationship between market values and academic values in the roles and behaviors of faculty and administrators In providing an unprecedented in depth data based look at the management of the academic profession the book will be of interest not only to educational researchers but also to professionals throughout higher education **Contributions to Education** Columbia University.
