Hybridization of MNE Subsidiaries F. Becker-Ritterspach, 2008-12-03 MNEs setting up subsidiaries in emerging markets face the ongoing question to what extent they can transfer their home grown or global organizational models This book looks at how the cross border transfer of production models in MNEs is related to strategic choices of firms and different kinds of contextual differences between countries **Automotive Aerodynamics** Joseph Katz, 2016-05-02 The automobile is an icon of modern technology because it includes most aspects of modern engineering and it offers an exciting approach to engineering education Of course there are many existing books on introductory fluid aerodynamics but the majority of these are too long focussed on aerospace and don't adequately cover the basics Therefore there is room and a need for a concise introductory textbook in this area Automotive Aerodynamics fulfils this need and is an introductory textbook intended as a first course in the complex field of aerofluid mechanics for engineering students It introduces basic concepts and fluid properties and covers fluid dynamic equations Examples of automotive aerodynamics are included and the principles of computational fluid dynamics are introduced This text also includes topics such as aeroacoustics and heat transfer which are important to engineering students and are closely related to the main topic of aerofluid mechanics This textbook contains complex mathematics which not only serve as the foundation for future studies but also provide a road map for the present text As the chapters evolve focus is placed on more applicable examples which can be solved in class using elementary algebra The approach taken is designed to make the mathematics more approachable and easier to understand Key features Concise textbook which provides an introduction to fluid mechanics and aerodynamics with automotive applications Written by a leading author in the field who has experience working with motor sports teams in industry Explains basic concepts and equations before progressing to cover more advanced topics Covers internal and external flows for automotive applications Covers emerging areas of aeroacoustics and heat transfer Automotive Aerodynamics is a must have textbook for undergraduate and graduate students in automotive and mechanical engineering and is also a concise reference for engineers in industry **Cemeterians** Jack W. Plunkett, 2008 Franklin Jack Marla Thadius and Caitlin this unlikely group of assorted misfits are the Cemeterians a group that will take on any job no really we mean any bloody job money's a bit tight right now Trudge through disgusting sewers to battle manatee massacring mermaids and soggy cultists creep through creepy fog littered cemeteries straight out of an ancient Hammer Film soundstage confront undead lecherous lodgers and other assorted beasties creepies and ghoulies It all comes down to whether an adolescent giant Automaton a truly mad Mad Scientist a surly Necromancer a Banshee's granddaughter and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other or at least quit fighting over the tele privilege schedule long enough

to get the job done Not likely A Successful Transformation? Petr Pavlínek, 2008-04-30 I started researching the dramatic changes in the automobile industry of Central and East European countries in the late 1990s My interest grew out of my previous work on the post socialist transformation foreign direct investment and regional economic development While researching the economic and regional development effects of foreign direct investment I was increasingly drawn to the automobile industry because of the speed and depth of its transformation through foreign direct investment and its potentially very significant economic and regional development effects In addition to working on the Central and East European automobile industry as a whole I became interested in detailed case studies of enterprise restructuring as I wanted to understand its complex nature and the role of different actors in the restructuring of the automobile industry In order to achieve this goal I visited dozens of automotive enterprises especially in the Czech Republic Czechia to conduct in depth interviews with key informants I have also interviewed key informants at ministries automotive associations and academia and collected various secondary data and information This book is the outcome of this work In this endeavor I have benefited from various support The University Committee on Research and Creative Activity at the University of Nebraska at Omaha funded three field work sessions in Czechia to conduct interviews and research for this book **Hungarian R&D Articles**, 2003 **The Complete Book of the World Rally Championship** Henry Hope-Frost, John Davenport, 2004 For 30 years some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize the World Rally Championship Now a multi million dollar global technology battle and terrestrial television phenomenon played out over the frozen wastes of Finland the dusty plains of Australia and the sun kissed mountain roads of Corsica the WRC has reached its 30th birthday This book celebrates that important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport The Complete Book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship Rally since 1973 The biographies are compiled by the sport's leading writers and historians and complemented by stunning photography The book includes a detailed and accurate statistical career record of each driver plus highlights of all the significant cars *The Motor Industry of Great Britain* Society of Motor Manufacturers and Traders, 2005 *Europe's Automotive Industry on the Move* Oliver Henric, Georg Licht, Wolfgang Sofka, 2005-07-15 The automotive industry is a major pillar of the modern global economy and one of Europe's key industries There can hardly be any doubt about the important role of this sector as an engine for employment growth and innovation in Europe and there are crucial challenges and opportunities ahead The authors shed light on a broad range of issues globalisation and restructuring trade and foreign direct investment innovation regulation and industry policy and put a special focus on the new member states While change may be inevitable progress is not This book shall serve as a map to all stakeholders business executives and policy makers investors and scholars *A Declaration of Interdependence* Will Hutton, 2003 You're sure to be provoked and enlightened by
