Architectural Approach to Level Design Christopher W. Totten,2019-04-25 Written by a game developer and professor trained in architecture An Architectural Approach to Level Design is one of the first books to integrate architectural and spatial design theory with the field of level design It explores the principles of level design through the context and history of architecture Now in its second edition An Architectural Approach to Level Design presents architectural techniques and theories for you to use in your own work The author connects architecture and level design in different ways that address the practical elements of how designers construct space and the experiential elements of how and why humans interact with that space It also addresses industry issues like how to build interesting tutorial levels and how to use computer generated level design systems without losing the player focused design of handmade levels Throughout the text you will learn skills for spatial layout evoking emotion through gamespaces and creating better levels through architectural theory FEATURES Presents case studies that offer insight on modern level design practices methods and tools Presents perspectives from industry designers independent game developers scientists psychologists and academics Explores how historical structures can teach us about good level design Shows how to use space to guide or elicit emotion from players Includes chapter exercises that encourage you to use principles from the chapter in digital prototypes playtesting sessions paper mock ups and design journals Bringing together topics in game design and architecture this book helps you create better spaces for your games Software independent the book discusses tools and techniques that you can use in crafting your interactive worlds

American/Medieval Goes North Gillian R. Overing,Ulrike Wiethaus,2019-10-07 One of the great virtues of American Medieval Goes North is its wide range of contributors with fascinatingly diverse relationships to the main terms of analysis There are academic scholars poets filmmakers tribal elders teachers at various levels there are Indigenous people people from settler colonial cultures expats

immigrants Their analytic and imaginative encounters with the North catch at the intensely symbolic and political charge of that locus At a time when Medieval Studies cannot afford to ignore the period s popular uptake cannot continue with business as usual in the face of white supremacists brazen appropriations of the Middle Ages this volume points to new possibilities for grappling with the uneasy relationships between the American and the medieval Prof Carolyn Dinshaw New York University
