Spiritwalker Messages From The Future:

Spiritwalker Hank Wesselman, 1996-07-01 I am about to tell you a most unusual story a chronicle of something that happened to me while I was living on the flank of an active volcano on the island of Hawaii. I'm a scientist. I mention this because I do not feel that I was in any way predisposed for what was about to occur. In fact, my scientific training would seem to have preprogrammed me against such an experience. From Spiritwalker The astonishing true story of an anthropologist's quest into a spiritual world of magic, mysticism and meaning. Not since Castaneda's tutelage under the Yacui Indian guide Don Juan has there been a spiritual autobiography quite like Spiritwalker. Hank Wesselman's incredible story of a series of encounters that would forever change his life began with what he at first tried to explain away as particularly vivid dreams but which grew increasingly intense and insistent ultimately propelling him on twelve fantastic journeys across time and space. Over the next three years his journeys proved to be far more important than mere reason could explain. Eventually Dr Wesselman became convinced that he'd been granted a visionary encounter with what tribal people from millennia past have called the spirit world. During his epic travels Dr Wesselman met shape shifting entities, spirit helpers and guardians and found himself traversing a mental, physical and spiritual landscape on a path intersecting that of a fellow traveler, a Hawaiian kahuna mystic named Nainoa. Five thousand years into the future, Nainoa had been sent by his Chief on a journey into what used to be America, a once powerful land of machines and magic from which no previous voyagers had ever returned. What did Nainoa seek from Dr Wesselman? What did the anthropologist have to learn about his own world from this exotic traveler from another time and place? Together, scientist and mystic are initiated into knowledge of non-ordinary levels of reality and given foreshadowings of imminent environmental, political and spiritual challenges to their civilization. Without abandoning his scientific objectivity, Dr Wesselman abandoned himself to the mystical, sometimes frightening yet always luminous experiences that brought him beyond the boundaries of ordinary consciousness. The result is a fascinating and suspenseful adventure, an exciting and important archeological discovery and the story of how a hard-headed scientific realist stumbled on an important piece of the puzzle of human evolution. Socially urgent and disturbingly prophetic, Spiritwalker has a universal mythic resonance and an undeniable relevance for today as it challenges our perceptions of our world, our reality and our future.

Inner Paths to Outer Space Rick Strassman, Slawek Wojtowicz, Luis Eduardo Luna, Ede Frecska, 2008-03-27 An investigation into experiences of other realms of existence and contact with otherworldly beings. Examines how contact with alien life forms can be obtained through the inner space dimensions of our minds. Presents evidence that other worlds experienced through consciousness altering technologies are often as real as those perceived with our five senses. Correlates science fiction's imaginal realms with psychedelic research. For thousands of years, voyagers of inner space, spiritual seekers, shamans and psychoactive drug users have returned from their inner imaginal travels reporting encounters with alien intelligences. Inner Paths to Outer Space presents an innovative examination of how we can reach these other dimensions of

existence and contact otherworldly beings Based on their more than 60 combined years of research into the function of the brain the authors reveal how psychoactive substances such as DMT allow the brain to bypass our five basic senses to unlock a multidimensional realm of existence where otherworldly communication occurs They contend that our centuries old search for alien life forms has been misdirected and that the alien worlds reflected in visionary science fiction actually mirror the inner space world of our minds The authors show that these alien worlds encountered through altered states of human awareness either through the use of psychedelics or other methods possess a sense of reality as great as or greater than those of the ordinary awareness perceived by our five senses
