Sports Marketing Agreements: Legal, Fiscal and Practical Aspects, Ian S. Blackshaw, 2011-10-20 Sports marketing is not only a global phenomenon but also a major industry in its own right. This book breaks new ground in that it combines the theory and the practice of sports marketing agreements which are at the heart of the commercialisation and marketing of sport. A particular feature of this book is the wide-ranging collection of precedents of sports marketing agreements including inter alia sponsorship, merchandising, TV rights and new media sports image rights and endorsements, event management and corporate hospitality that are included and are explained and commented on in the text of the book. The book also covers the EU aspects which are particularly important in this context, especially collective selling of Sports TV rights and the drafting of the corresponding agreements as well as the fiscal aspects of sports marketing agreements in general and sports image rights agreements in particular which need to be taken into account in order to reduce the tax burden on the resulting revenues. With so much money at stake in sports marketing, the book also deals with the important topic of dispute resolution and again provides the reader with some useful corresponding clauses for settling disputes by ADR, particularly through the Court of Arbitration for Sport (CAS). As the author remarks in his Preface, the aim of the book is to provide a leading resource
