Mixed-Income Housing Development Planning Strategies and Frameworks in the

Global South George Okechukwu Onatu, Wellington Didibhuku Thwala, Clinton Ohis Aigbavboa, 2023-12-14 Functioning as a toolkit for inclusive urban planning this book acts as both a model for understanding the planning and management of this framework and a foundation for future research Early Warning Systems and Targeted Interventions for Student Success in Online Courses Glick, Danny, Cohen, Anat, Chang, Chi, 2020-06-26 Online learning has increasingly been viewed as a possible way to remove barriers associated with traditional face to face teaching such as overcrowded classrooms and shortage of certified teachers While online learning has been recognized as a possible approach to deliver more desirable learning outcomes close to half of online students drop out as a result of student related course related and out of school related factors e g poor self regulation ineffective teacher student student student and platform student interactions low household income Many educators have expressed concern over students who unexpectedly begin to struggle and appear to fall off track without apparent reason A well implemented early warning system therefore can help educators identify students at risk of dropping out and assign and monitor interventions to keep them on track for graduation Despite the popularity of early warning systems research on their design and implementation is sparse Early Warning Systems and Targeted Interventions for Student Success in Online Courses is a cutting edge research publication that examines current theoretical frameworks research projects and empirical studies related to the design implementation and evaluation of early warning systems and targeted interventions and discusses their implications for policy and practice Moreover this book will review common challenges of early warning systems and dashboard design and will explore design principles and data visualization tools to make data more understandable and therefore more actionable Highlighting a range of topics such as curriculum design game based learning and learning support it is ideal for academicians policymakers administrators researchers education professionals instructional designers data analysts and students GIS Integrated Teaching on Secondary School Underachieving Students' Geography Learning Goals Soon Singh A/L Bikar Singh, 2021-06-28 Recent studies show that the number of students who select to study Geography in Malaysian secondary schools and their level of achievement in the subject has decreased The main factor is lack of motivation Over multiple decades a large and growing body of literature has indicated that ICT enhances students motivation to learn and their learning outcome The studies demonstrate that the use of ICT in teaching activities provides more fun in an authentic learning environment and increases learning autonomy interaction and collaboration It is therefore a rich opportunity for motivating students to study In addition despite an increased interest among scholars to investigate the impact of ICT integrated Geography teaching on students motivation and achievement none have investigated the effects of GIS as a new technological teaching tool on students Geography learning goals and their learning outcomes The idea for this book originated from the author s PhD study to examine the effects of GIS based instruction on secondary school student Geography learning goals and their learning outcomes This book is highly beneficial for Geography teachers to use multiple teaching methods and pedagogies in a GIS

integrated teaching environment to cultivate underachieving students mastery goal performance approach goal and learning and to decrease avoidance behaviour in learning the subject Although GIS is widely used in Malaysia it has not been embraced by the Malaysian education system and is absent from the Geography curriculums in the primary and secondary school contexts Hence writing of this book will also help the Curriculum Development Centre and Ministry of Education Malaysia develop a GIS based teaching module to enhance the learning motivation of Geography and improve the student level of achievement

Risk Management Competency Development in Banks Eric H.Y. Koh, 2019-06-04 This Pivot proposes an integrated approach to facilitate competency development in a more comprehensive way It examines this approach in the important but seldom studied context of risk management in banks Risk management weaknesses in banks have persisted in spite of regulatory changes This Pivot takes inspiration from three unlikely sports heroes to create the proposed integrated approach to risk management competency development bringing together three competency development concepts hitherto studied in isolation that are more comprehensive and more effective when combined The author studies the integrated approach under three specific objectives The concepts are first operationalized into 23 actionable indicators through literature reviews and experts reaffirmation Then the t test and discriminant analysis are used to identify how banks across different demographic groups place different emphases on these indicators Lastly these indicators are summarized into key themes via factor analysis
