Journalism in the Age of Virtual Reality John V. Pavlik,2019-09-17 With the advent of the internet and handheld or wearable media systems that plunge the user into 360o video augmented or virtual reality technology is changing how stories are told and created In this book John V Pavlik argues that a new form of mediated communication has emerged experiential news Experiential media delivers not just news stories but also news experiences in which the consumer engages news as a participant or virtual eyewitness in immersive multisensory and interactive narratives Pavlik describes and analyzes new tools and approaches that allow journalists to tell stories that go beyond text and image He delves into developing forms such

as virtual reality haptic technologies interactive documentaries and drone media presenting the principles of how to design and frame a story using these techniques Pavlik warns that although experiential news can heighten user engagement and increase understanding it may also fuel the transformation of fake news into artificial realities and he discusses the standards of ethics and accuracy needed to build public trust in journalism in the age of virtual reality Journalism in the Age of Virtual Reality offers important lessons for practitioners seeking to produce quality experiential news and those interested in the ethical considerations that experiential media raise for journalism and the public Math Geek Raphael Rosen,2015-03-05

Kidding Around Alexander N. Howe, Wynn Yarbrough, 2014-01-16 Kidding Around The Child in Film and Media is a collection of essays generated by a conference of the same title held at the University of the District of Columbia The works gathered examine a variety of children s media including texts produced for children e g children s books cartoons animated films as well as texts about children e g feature length films literature playground architecture parenting guides The primary goal of Kidding Around is to analyze and contextualize contested representations of childhood and children in various twentieth and twenty first century media while accounting for the politics of these narratives Each of the essays gathered offers a critical history of the very notion of childhood at the same time as it analyzes

exemplary children's texts from the twentieth and twenty-first centuries. These chapters depart from various methodological approaches including psychoanalytic, sociological, ecological, and historical perspectives, offering the reader numerous productive approaches for analyzing the moments of cultural conflict and impasse found within the primary works studied. Despite the fact that today children are one of the most coveted demographics in marketing and viewership, academic work on children's media and children in media is just beginning. *Kidding Around* assembles experts from this inchoate field, opening discussion to traditional and non-traditional children's texts.
