Sri Lanka Situation Report:

Outlook and Situation Report ,1984 *Outlook and Situation Report. World Agriculture* ,1983 **Sri Lanka, State of Human Rights** ,2003 Rebuilding Communities After Displacement Mo Hamza,Dilanthi Amaratunga,Richard Haigh,Chamindi Malalgoda,Chathurangane Jayakody,Anuradha Senanayake,2023-02-19 This book presents a collection of double blind peer reviewed papers under the scope of sustainable and resilient approaches for rebuilding displaced and host communities Forced displacement is a major development challenge not only a humanitarian concern A surge in violent conflict as well as increasing levels of disaster risk and environmental degradation driven by climate change has forced people to leave or flee their homes both internally displaced as well as refugees The rate of forced displacement befalling in different countries all over the world today is phenomenal with an increasingly higher rate of the population being affected on daily basis than ever These displacement situations are becoming increasingly protracted many lasting over 5 years Therefore there is a need to develop more sustainable and resilient approaches to rebuild these displaced communities ensuring the long term satisfaction of communities and enhancing the social cohesion between the displaced and host communities Accordingly chapters are arranged around five main themes of rebuilding communities after displacement Response management for displaced communities The Built environment in resettlement planning Governance of displacement Socio Economic interventions for sustainable resettlement *The Tamil Separatist War in Sri Lanka* Channa Wickremesekera,2016-02-26 The complex and long drawn war between the Sri Lankan government and the Liberation Tigers of Tamil Eelam LTTE ended with the defeat of the Tigers in 2009 This book provides a military history of the conflict in tracing its evolution from a battle between a ragtag guerrilla force and a mainly ceremonial army to one between an organized guerrilla force with semi conventional capability and a state military apparatus that had morphed into a large and potent force with modern armour aircraft and naval vessels Using a wide range of sources this book offers an incisive analysis of the progress and conclusion of one of the longest and most destructive wars in modern South Asia Comprehensive and accessible the volume will be of great interest to scholars and researchers of modern South Asia especially Sri Lanka military history politics defence and strategic studies as well as the general reader **One Health** Meththika Vithanage,Majeti Narasimha Vara Prasad,2023-06-14 One Health A balanced and multidisciplinary exploration of the One Health concept In One Health Human Animal and Environment Triad a team of distinguished researchers introduces and explains the concept of One Health by providing an overview of the One Health idea from the perspective of diverse disciplines from earth and environmental science to ecology and conservation to veterinary and human medicine The authors also present case studies demonstrating the real world challenges and opportunities of this interdisciplinary approach to sustainable human well being Readers will find insightful discussions of the interactions between chemical pollutants and water soil and the atmosphere as well as detailed examinations of sustainable food supply waste management and pathogen

control backed up by extensive reference data One Health Human Animal and Environment Triad also includes The emergence and re emergence of zoonoses and other infectious diseases The behavior of microplastics in soil and water Organic farming and its influence on soil health The role of light for human well being Perfect for researchers interested in global health ecological health medical geology toxicology epidemiology and zoonotic diseases One Health Human Animal and Environment Triad will also benefit professionals with an interest in public health and other public services resource conservation waste management and the circular economy Confronting Past Human Rights Violations Chandra Lekha Sriram,2004-08-12 This book examines what makes accountability for previous violations more or less possible for transitional regimes to achieve It closely examines the other vital goals of such regimes against which accountability is often balanced The options available are not simply prosecution or pardon as the most heated polemics of the debate over transitional justice suggest but a range of options from complete amnesty through truth commissions and lustration or purification to prosecutions The question then is not whether or not accountability can be achieved but what degree of accountability can be achieved by a given country The focus of the book is on the politics of transition what makes accountability more or less feasible and what strategies are deployed by regimes to achieve greater accountability or alternatively greater reform The result is a more nuanced understanding of the different conditions and possibilities that countries face and the lesson that there is no one size fits all prescription that can be handed to transitional regimes

Multi-Hazard Early Warning and Disaster Risks Dilanthi Amaratunga, Richard Haigh, Nuwan Dias, 2021-09-11 This book presents a collection of papers under the theme of multi hazard early warning and disaster risks These were selected from the presentations made at the International Symposium on Tsunami and Multi Hazard Risks Early Warning and Community Awareness in supporting implementation of the Sendai Framework for Disaster Risk Reduction 2015 2030 This conference aimed to recognize achievements and to highlight work that still needs to be carried out The conference promoted collaboration among academia research institutions and disaster management offices and further encouraged multidisciplinary and multi sectoral interaction This International Symposium on Multi Hazard Early Warning and Disaster Risk Reduction provided an important opportunity to reflect upon our progress to date in tackling disaster risk but also to consider some of the challenges and opportunities that lay ahead of us A particular focus of this event was Multi Hazard Early Warning During the negotiations for the Sendai Framework countries and partners highlighted the need to 1 Continue to invest in develop maintain and strengthen people centred end to end early warning systems 2 Promote the application of simple and low cost early warning equipment and facilities 3 Broaden the dissemination channels for early warning information to facilitate early action Countries also called for the further development of and investment in effective nationally compatible regional multi hazard early warning mechanisms To address these needs global Target g of the Sendai Framework was adopted namely to substantially increase the availability of and access to multi hazard early warning systems and disaster risk information and assessments to the people by 2030 As illustrated by recent events in Indonesia it is also vital to address the challenge of cascading hazards that pose a tsunami risk and the importance of linking tsunami early warning to a multi hazard environment However moving towards a multi hazard environment is complex and poses many challenges but can bring significant benefits in terms of efficiencies and also in recognising the links between hazards such as cascading threats We very much hope that this book will provide an important platform to address these and other challenges in addressing disaster risk as well as supporting implementation of the Sendai Framework for Disaster Risk Reduction

Children, Human Rights and Temporary Labour Migration Rasika

Jayasuriya,2021-06-22 This book focuses on the neglected yet critical issue of how the global migration of millions of parents as low waged migrant workers impacts the rights of their children under international human rights law The work provides a systematic analysis and critique of how the restrictive features of policies governing temporary labour migration interfere with provisions of the Convention on the Rights of the Child that protect the child parent relationship and parental role in children s lives Combining social and legal research it identifies both potential harms to children s well being caused by prolonged child parent separation and State duties to protect this relationship which is deliberately disrupted by temporary labour migration policies The book boldly argues that States benefitting from the labour of migrant workers share responsibility under international human rights law to mitigate harms to the children of these workers including by supporting effective measures to maintain transnational child parent relationships It identifies measures to incorporate children s best interests into temporary labour migration policies offering ways to reduce interferences with children s family rights This book fills a gap that emerges at the intersection of child rights studies migration research and existing literature on the purported nexus between labour migration and international development It will be a valuable resource for academics researchers and policymakers working in these areas The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9781003028000> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Innovative Approaches to Handle Plastic Waste and Foster Bio-based Plastics

Production Walter Leal Filho,Jelena Barbir,Nhan Huu Nguyen,Reinhard Saborowski,2025-05-12 This book provides a platform for the dissemination of information on the latest initiatives paving the way for technology transfer and networking Addressing the global challenge of plastic waste requires innovative approaches both in managing existing waste and in developing sustainable materials The strategies can be broadly categorised into two main areas a handling plastic waste and b fostering bio based plastics production Both are equally important There is a perceived need for publications which document and showcase innovative approaches and strategies to tackle the plastic waste challenge Against this backdrop

and in order to facilitate a broad discussion on the contribution of innovative approaches to handle plastic and foster bioplastics use that this book is being produced Produced as an output of the Horizon 2020 project BIO PLASTICS EUROPE The book gathers inputs from universities and research organisations working on matters related to plastic waste management and bioplastic production in a variety of contexts Furthermore the book intends to provide a fertile basis upon which universities research centres and practitioners may cooperate more closely in this key area Last but not least a further aim of the book is to present methodological approaches and experiences deriving from case studies and projects which aim to show how research to handle plastic based pollution and many related problems may be implementing across a range of disciplines Thanks to its scope and interdisciplinarity this books makes an excellent reading to everyone interested on handling the many challenges posed by plastics in our modern society

Researching with Communities Ruth DeSouza,Andy Williamson,2007 Researching with communities presents a range of personal and grounded perspectives from academics researchers and practitioners on undertaking research in ways that promote and privilege the voice of the community is respectful of local or indigenous practices and is culturally safe Most definitely not a tick list for approaching community inclusive research this book provides grounded exemplars guides and discussion about the experiences of doing research respectfully and inclusively It does this by drawing on the perspectives of researchers and community practitioners and by providing a range of reflective chapters that explore what community based research means in a range of settings and for a range of people Like the communities in which they are grounded undertaking research in this way is always a unique experience

The Separatist Conflict in Sri Lanka Asoka Bandarage,2008-11-19 The book provides a detailed historically based analysis of the origin evolution and potential resolution of the civil conflict in Sri Lanka over the struggle to establish a separate state in its Northern and Eastern provinces This conflict between the Sri Lankan government and the secessionist LTTE Liberation Tigers of Tamil Eelam is one of the world s most intractable contemporary armed struggles The internationally banned LTTE is considered the prototype of modern terrorism It is known to have introduced suicide bombing to the world and recently became the first terrorist organization ever to acquire an air force The iron law of ethnicity the assumption that cultural difference inevitably leads to conflict has been reinforced by the 9 11 attacks and conflicts like the one in Sri Lanka However the connections among ethnic difference conflict and terrorism are not automatic This book broadens the discourse on the separatist conflict in Sri Lanka by moving beyond the familiar bipolar Sinhala versus Tamil ethnic antagonism to show how the form and content of ethnicity are shaped by historical social forces It develops a multipolar analysis which takes into account diverse ethnic groups intra ethnic social class caste and other variables at the local regional and international levels Overall this book presents a conceptual framework useful for comparative global conflict analysis and resolution shedding light on a host of complex issues such as terrorism civil society diasporas international intervention and secessionism

Sovereignty, Space and Civil War in Sri Lanka Anoma Pieris,2018-10-25

Analyses of the Sri Lankan civil war 1983-2009 overwhelmingly represent it as an ethnonationalist contest prolonging postcolonial arguments on the creation and dissolution of the incipient nation state since independence in 1948. While colonial divide and rule policies, the rise of ethnonationalist lobbies, structural discrimination and majoritarian democracy have been established as grounds for inter-ethnic hostility, there are other significant transformative forces that remain largely unacknowledged in postcolonial analyses. This ambitious multiscalar spatial study of civil war in Sri Lanka offers an intersectional and ethnicised analysis of political sovereignty drawn out by the struggle for territory. Based on vital retrospective findings from the five-year postwar period when wartime hostilities were still festering, it convincingly links ethnonationalism to postnational border politics, marketisation, militarised securitisation and illiberal democracy. This book argues that internecine conflict exposes the implicit violence within nation state formations, mass human displacements heighten collective and individual ontological insecurity, and neoliberalism makes the nation porous in unforeseen ways. Based around three themes: normative spaces, human mobilities and exilic states, it is organised into ten comprehensive chapter-based explorations of a range of spatial units including homes, cities, routes, camps and experiences of ruin that were irrevocably politicised by protracted conflict. Focusing on their material transformations over a thirty-seven-year period, the book explores what can be known of the war if we look beyond ethnicity to other salient shared geographical features of this embattled history. The book uncovers how fealty to exclusionary cultures of political sovereignty aligns us with their violence, limiting our capacity for empathy, a boundary seemingly exacerbated by neoliberal opportunities. Making use of Sri Lanka as a case study to test geographic, architectural and urban methodologies for understanding violence, this book acts as a provocation to rethink current readings of the particular case study while reflecting on the more general impact of marketisation and militarisation in Asia. It will be of interest to an interdisciplinary audience including those scholars interested in South Asian history, politics and civil war, South Asian studies, border studies, geography and architecture and urban studies.

Tsunami Recovery in Sri Lanka Dennis B. McGilvray, Michele R. Gamburd, 2013-05-13. The Indian Ocean Tsunami which devastated 70 percent of Sri Lanka's coastline and killed an estimated 35,000 people was remarkable both for the magnitude of the disaster and for the unprecedented scale of the relief and recovery operations mounted by national and international agencies. The reconstruction process was soon hampered by political patronage by the competing efforts of hundreds of foreign humanitarian organizations and by the ongoing civil war. The book is framed within this larger political and social context, offering descriptions and comparisons between two regions: southwest vs. eastern coast and four ethnic communities: Sinhalese, Tamils, Muslims and Burghers, to illustrate how disaster relief unfolded in a culturally pluralistic political landscape. Approaching the issue from four disciplinary perspectives: anthropology, demography, political science and disaster studies, chapters by experts in the field analyse regional and ethnic patterns of post-tsunami reconstruction according to different sectors of Sri Lankan society. Demonstrating the key importance of comprehending the local cultural

contexts of disaster recovery processes the book is a timely and useful contribution to the existing literature *The Middle East and North Africa* Alasdair Drysdale, 2024-10-15 This contemporary text the first in over a decade on the region presents the geography of the Middle East and North Africa defined as the Arab World Israel Turkey Iran and Afghanistan Thematically organized the book's eleven chapters focus on the region's physical and climatic setting demographic characteristics migration patterns religious and linguistic diversity political map offshore claims oil and gas resources and subregions and states Within this framework Drysdale emphasizes pressing current problems the impact of climate change in a region where some areas already suffer from extreme summer heat and aridity the challenge of providing additional water in a region where per capita availability of freshwater is already the lowest in the world the impact of high fertility and rapid population growth in a fragile environment where economies are often unable to absorb young workers entering the labor force the looming prospect of an aging population the effects of out and in migration the diverse impact and role of Islam in daily and public life the integrative consequences of linguistic and ethnic diversity the evolution and imperfections of the political map ongoing territorial and boundary disputes that often have global repercussions external dependence on the region's prolific oil and gas resources and the extreme regional inequalities associated with their presence or absence This timely and insightful analysis is essential reading for students of the region who need a better understanding of key regional characteristics challenges and issues **Enhancing Skills in Sri Lanka for Inclusion, Recovery, and Resilience** Shobhana Sosale, Seo Yeon Hong, Hiran Herat, Shalika Subasinghe, 2023-12-29 Sri Lanka is at a crossroads There is an urgent need to enhance skills in Sri Lanka to increase inclusion support recovery and build resilience This report addresses these issues and provides recommendations for strengthening skills and improving education Situation Report on International Migration in East and South-East Asia Regional Thematic Working Group on International Migration Including Human Trafficking, 2008
