Gladden,2024-02-14 What would humanity s future look like if the isle of Utopia had been real and had guided the creation of a joyful global civilization free from all selfishness competition and discord Utopian Confederation From the Mall to the Stars presents such a world In the 22nd century human society exists not as an array of rival states but as a halcyon confederation of all living persons everywhere that s voluntarily reaffirmed with each new day Here it isn t just material goods that are held in common even persons innermost thoughts are a shared public resource thanks to advanced neurocybernetics Written laws and politics no longer play any role in society as all individuals are raised to embrace a single vision for achieving the greater good and to live it continually Scientific inquiry and thaumaturgy go hand in hand as human beings seek to understand and shape their place in the cosmos through both technological and miraculous means And now the perfection of SquarM reactors and the SNuP drive has allowed construction of the first vessel capable of completing an interstellar journey in decades rather than centuries The colonies on the Moon and the Cinnabar Planet of Euthyphrar have already expanded the horizons of human experience but now it s hoped that a multigenerational voyage to the planets of Arcana Centauri might shed light on the greatest spiritual and intellectual puzzle still facing humankind namely is it really possible that our Solar System is home to the only life in the cosmos Is Earth the focal point of the universe And if intelligent life is abundant in other star systems why have we been unable to discover any evidence of it despite centuries of effort The Utopian
