Spring S Beginning The Season S Series Volume 1:

The Springs Collection: Volume One Elena Aitken, 2015-03-09 When you're looking for a little escape to the rugged mountain landscape that's as beautiful as it is wild, unwind at The Springs. With the Springs resort set to open in mere weeks, Trent Harrison needs to stay focused and see to every detail. The last thing he needs is a complication, even one that comes in the form of sexy bar owner Samantha Burke. Samantha loves her quiet, close-knit community of Cedar Springs just the way it is. The addition of a fancy new resort, as well as its arrogant owner, and the change they're both sure to bring is certainly not welcome. With Trent pushing his way into her town and her life, Samantha's resistance to him wavers in the face of the passion and heat they share. Change is inevitable, but can either of them drop their guard long enough to accept it when there's so much on the line? The last thing Officer Rhys Anderson expected to encounter at the end of his quiet Sunday afternoon shift was a beautiful woman stranded by the side of the road in his hometown of Cedar Springs. After that one chance meeting, and despite the fact that Rhys knows there's something Kari's hiding, he can't keep his mind off her. All Kari Fox wanted to do was run as far away from her life and her controlling ex-husband as possible. She never planned to end up stuck in a small mountain town, and she definitely never expected to fall for the handsome police officer who helped her. With a good job at the Springs resort, good friends, and a steamy new relationship, things are finally beginning to go right, and Kari might even be starting to believe that she has a future in Cedar Springs. But Kari has secrets. Secrets that threaten to destroy everything she's trying to create, including her relationship with Rhys. As the truth comes to light, will their connection be strong enough to withstand the truth of her past? When Kylie Wilson receives a mysterious invitation for an all-expenses-paid trip to a tropical all-inclusive resort, there's no doubt in her mind who it came from: Marcus Stone, the only man she thought she loved. The same man who'd promised her forever and then promptly left town to pursue his dream without so much as a backward glance. Kylie owes it to herself to take a chance, and despite her conflicted feelings, she decides to risk her heart again and is soon jetting toward the island of Eden, where the man she hopes will finally fill the void in her life. But when she arrives, it's not Marcus at all, but his much sexier twin brother, Malcolm. Kylie's more confused than ever. But on an island that is supposed to know exactly what you need, can Kylie open her body, mind, and more importantly, her heart, to the idea that sometimes you have to take second glances?

Michèle Daviau, 2022-05-20 Located in a strategic position on the southern flank of the Ammonite hill country overlooking the Madaba Plain, the earliest settlement at Tall Jawa dates to the Iron I period (1100–900 BC). This settlement was redesigned during Iron Age II (900–600 BC) and consisted of a walled town surrounded by a casemate-style fortification system and a multi-chambered gate complex. Major buildings standing to the second storey are described in detail with their furnishings and contents. A marked change in architecture, ceramic technology, and high-status artefacts mark the high point of Tall Jawa during the period of the Assyrian empire (730–600 BC). The major features of each structure are illustrated both in the text and

Reformation Ole Peter Grell,2017-05-15 Recent decades have witnessed the fragmentation of Reformation studies with high level research confined within specific geographical confessional or chronological boundaries By bringing together scholars working on a wide variety of topics this volume counteracts this centrifugal trend and provides a broad perspective on the impact of the European reformation The essays present new research from historians of politics of the church and of belief

Their geographical scope ranges from Scotland and England via France and Germany to Transylvania and their chronological span from the 1520s to the 1690s Considering the impact of the Reformation on political culture and examining the relationship between rulers and ruled the book also examines the church and its personnel another sphere of life that was entirely transformed by the Reformation Important aspects of knowledge and belief are discussed in terms of scientific knowledge and technological progress juxtaposed with analyses of elite and popular belief which demonstrates the limitations of Weber's notion of the disenchantment of the world Together they indicate the diverse directions in which Reformation scholarship is now moving while reminding us of the need to understand particular developments within a broader European context demonstrating that movements for religious reform left no sphere of European life untouched
