Squares Of Memories:

Squares of Memories Philippe Monfouga, 2008-08-24 Art volume of photographies 400 photographies part of art installation

Local Memories in a Nationalizing and Globalizing World M. Beyen, B. Deseure, 2015-03-10 In historical studies collective memory is most often viewed as the product of nationalizing strategies carried out by political elites in the hope to create homogeneous nation states In contrast this book asserts that collective memories develop out of a never ending triangular negotiation between local national and transnational actors

Digital Human Modeling and Applications in Health, Safety, Ergonomics and Risk Management. Healthcare Applications Vincent G. Foreign Language Learning Alice F. Healy, Lyle E. Bourne, Jr., 2013-05-13 Based on a research project funded by the Army Research Institute Foreign Language Learning reports original empirical and theoretical research on foreign language acquisition and makes recommendations about applications to foreign language instruction The ultimate goal of this project was to identify a set of psychological principles that can provide the foundation for or at least argumentation for a foreign language training course This book reviews the various studies of which the project is comprised It begins with an overview chapter outlining the scope of the project and summarizing some of the experiments that were conducted in the laboratory In each of the following chapters the contributors report on previously unpublished research on selected specific psycholinguistic training principles vocabulary and concept acquisition language comprehension reading processes and bilingualism The final chapter prepared by a prominent expert on second language training provides an overview and evaluation of the contribution of the research described in earlier chapters to the goal of improving instructional methods in foreign language learning Sandwiched between the introductory and final chapters are four major sections Vocabulary and Concept Acquisition which discusses the effect of first language phonological configuration on lexical acquisition in a second language contextual inference effects in foreign language vocabulary acquisition and retention mediated processes in foreign language vocabulary acquisition and retention and the status of the count mass distinction in a mental grammar Language Comprehension which addresses voice communication between air traffic controllers and pilots who are nonnative speakers of English cognitive strategies in

discourse processing and the effects of context and word order in Maasai sentence production and comprehension Reading Processes which discusses the enhancement of text comprehension through highlighting the effect of alphabet and fluency on unitization processes in reading and reading proficiency of bilinguals in their first and second languages and Bilingualism which addresses Stroop interference effects in bilinguals between similar and dissimilar languages the individual differences in second language proficiency and the hierarchical model of bilingual representation *Discrete Mathematics Using Latin Squares* Charles F. Laywine, Gary L. Mullen, 1998-09-17 Over the past two decades research in the theory of Latin Squares has been growing at a fast pace and new significant developments have taken place This book offers a unique approach to various areas of discrete mathematics through the use of Latin Squares **Introduction to Artificial Intelligence** Philip C. Jackson, 2019-08-14 Can computers think Can they use reason to develop their own concepts solve complex problems understand our languages This updated edition of a comprehensive survey includes extensive new text on Artificial Intelligence in the 21st Century introducing deep neural networks conceptual graphs languages of thought mental models metacognition economic prospects and research toward human level AI Ideal for both lay readers and students of computer science the original text features abundant illustrations diagrams and photographs as well as challenging exercises Lucid easy to read discussions examine problem solving methods and representations game playing automated understanding of natural languages heuristic search theory robot systems heuristic scene analysis predicate calculus theorem proving automatic programming and many other topics **People-Centred Methodologies for Heritage Conservation** Rebecca Madgin, James Lesh, 2021-05-17 This book presents methodological approaches that can help explore the ways in which people develop emotional attachments to historic urban places With a focus on the powerful relations that form between people and places this book uses people centred methodologies to examine the ways in which emotional attachments can be accessed researched interpreted and documented as part of heritage scholarship and management It demonstrates how a range of different research methods drawn primarily from disciplines across the arts humanities and social sciences can be used to better understand the cultural values of heritage places In so doing the chapters bring together a series of diverse case studies from both established and early career scholars in Australia China Europe North America and Central America These case studies outline methods that have been successfully employed to consider attachments between people and historic places in different contexts This book advocates a need to shift to a more nuanced understanding of people s relations to historic places by situating emotional attachments at the core of urban heritage thinking and practice It offers a practical guide for both academics and industry professionals towards people centred methodologies for urban heritage conservation Reliable Computer Systems Daniel Siewiorek, Robert Swarz, 2014-06-28 Enhance your hardware software reliability Enhancement of system reliability has been a major concern of computer users and designers and this major revision of the 1982 classic meets users continuing need for practical information on this pressing topic Included are case

studies of reliable systems from manufacturers such as Tandem Stratus IBM and Digital as well as coverage of special systems such as the Galileo Orbiter fault protection system and AT T telephone switching processors

Memory and Intelligence (Psychology Revivals) Jean Piaget, Bärbel Inhelder, 2015-04-10 In the course of their researches for *Mental Imagery in the Child* 1971 the authors came to appreciate that action may be more conducive to the formation and conservation of images than is mere perception This raised the problem of memory and its relation to intelligence which they examine in this title originally published in English in 1973 Through the analysis primarily of the child's capacity for remembering additive and multiplicative logical structures and his remembrance of causal and spatial structures the authors investigate whether memories pursue their own course regardless of the intelligence or whether in specified conditions mnemonic improvements may be due to progress in intelligence They examine the relationship between the memory's figurative aspects from perceptive recognition to the memory image and its operational aspects the schemata of the intelligence and stress the fundamental significance of the mnemonic level known as the reconstructive memory This was a pioneering work at the time presenting illuminating conclusions drawn from extensive research together with a number of constructive ideas which opened up a fresh approach to an important area of educational psychology

Memory in Oral Traditions David C. Rubin, 1995 Long studied by anthropologists historians and linguists oral traditions have provided a wealth of fascinating insights into unique cultural customs that span the history of humankind In this groundbreaking work cognitive psychologist David C Rubin offers for the first time an accessible comprehensive examination of what such traditions can tell us about the complex inner workings of human memory Focusing in particular on their three major forms of organization theme imagery and sound pattern Rubin proposes a model of recall and uses it to uncover the mechanisms of memory that underlie genres such as counting out rhymes ballads and epics The book concludes with an engaging discussion of how conversions from oral to written communication modes can predict how cutting edge computer technologies will affect the conventions of future transmissions Throughout Rubin presents the results of important original research as well as new perspectives on classical subjects Splendidly written and farsighted *Memory in Oral Traditions* will be eagerly read by students and researchers in areas as diverse as cognitive psychology literary studies classics and cultural anthropology

Understanding Digital Humanities D. Berry, 2012-02-07 Confronting the digital revolution in academia this book examines the application of new computational techniques and visualisation technologies in the Arts Humanities Uniting differing perspectives leading and emerging scholars discuss the theoretical and practical challenges that computation raises for these disciplines

Healing Your Mind and Soul: Therapeutic Interventions in Quantum Reality Garry Flint, 2012-08 In his groundbreaking book *Healing Your Mind and Soul* Flint approaches healing from the point of view of quantum reality He creates a model of quantum reality which explains ancestral influences distant treatment and the cause of our experience of reality The model shows that we are all connected and created in a logical and orderly relationship with one another to give

us more happiness and less pain which suggests a loving creation process At the spiritual level Flint uses the model to define the soul and to discuss prayer and afterlife He defines Wisdom as a rich resource in the hidden reality It can be used to cause deep healing of many issues Examples of the communication between the therapist and patient teaches the reader a way to treat intruding souls ancestral fields and to use Wisdom to treat common issues Other experimental interventions are given Healing Your Mind and Soul is an invaluable self help guide that breaks important new therapeutic ground for both the health professional and the layperson Dr Garry A Flint is a psychologist with over 40 years of clinical experience He has treated issues in the quantum fields for the last 15 years He is the author of three previous books Emotional Freedom A Theory and Treatment of Your Personality and A Healing Legend co authored with Jo C Willems a a brave and provocative book Lee Pulos Ph D A B P P

Why we fear Henri Hyppönen, 2015-12-14 Why We Fear gets to grips with the essence of fear in life and in business Why We Fear uncovers the mechanisms of fear and the huge role this often misunderstood emotion plays in our daily lives At the same time it dismantles fear into understandable and actionable parts When fear is divided into its constituent parts the hidden workings of fear and fear based habits become visible In this way the book charts a road map for how to deal with this often destructive emotion and the heavy cost of fear in life and in business Fear has always been at the very core of human experience and yet people generally seem to believe that it is a force of nature outside their own control Fear is often seen as a mystical poorly understood influence that creeps up on us at the worst possible moment wrecks our performance dulls our wits and makes our lives shrink Why We Fear robs fear of this mystique In addition as Henkka Hyppönen points out fear is not always a disastrous and destructive force Sometimes a little injection of fear helps us to perform better as individuals and as teams

Nineteenth Century and After, 1907 **The Nineteenth Century and After**, 1907

Memory Development from Early Childhood Through Emerging Adulthood Wolfgang Schneider, 2014-09-03 Based on decades of established research findings in cognitive and developmental psychology this volume explores and integrates the leading scientific advances into infancy and brain memory linkages as well as autobiographical and strategic memory In addition given that the predominantly classic research on memory development has recently been complemented by more cutting edge applied research e g eyewitness memory memory development in educational contexts in recent years this volume also provides in depth and up to date coverage of these emerging areas of study
