Cremation and the Archaeology of Death Jessica Cerezo-Román, Anna Wessman, Howard Williams, 2017-04-14 The fiery transformation of the dead is replete in our popular culture and Western modernity's death ways and yet it is increasingly evident how little this disposal method is understood by archaeologists and students of cognate disciplines in the humanities and social sciences In this regard the archaeological study of cremation has much to offer Cremation is a fascinating and widespread theme and entry point in the exploration of the variability of mortuary practices among past societies Seeking to challenge simplistic narratives of cremation in the past and present the studies in this volume seek to confront and explore the challenges of interpreting the variability of cremation by contending with complex networks of modern allusions and imaginings of cremations past and present and ongoing debates regarding how we identify and interpret cremation in the archaeological record Using a series of original case studies the book investigates the archaeological traces of cremation in a varied selection of prehistoric and historic contexts from the Mesolithic to the present in order to explore cremation from a practice oriented and historically situated perspective
