over 180 color pictures and illustrations We've included 3 classic Datsun Service Bulletins for more historical information This is PART II The Technical and Service Manual One of the things that had been sorely lacking since the day the first roadster arrived on these shores was a good service manual that described day to day maintenance and service tasks in English oh yeah and made sense All the manuals of the period were original NISSAN publications that were translated in the early and mid 60's Coming before the time of Americanization of the staff the documents were pretty atrocious if you just wanted to adjust the valves set the timing replace brakes or something like that Of course they did spend several pages describing how to set the clearances on the differential gears if you were in the mood to rebuild your differential In 1986 we began writing service manual information to include with our parts catalog We tried to cover the major things like engine and gearbox rebuilds figuring that most people could find someone who could set the valves or change the oil Since the original version in 1986 we have expanded the service manual and added additional topics Each volume of The Datsun Roadster Book is sold separately so you can buy what you need when you need it Check Amazon for all three of our volumes Thanks for you for your Kindle purchase *The Datsun Roadster Book Part IV Reprint Spl310 Single Carburetor Workshop Service Manual* Scott Sheeler, 2019-02-15 This REPRINT Datsun factory service manual was issued to assist dealers on the Datsun 1500 sports cars when they were introduced in 1963 The manual covers all basic maintenance and repair steps for this model of car The REPRINT is composed from high quality scans of a clean lightly used manual which results in crisp easy to read pages Please NOTE There is a separate manual for the twin carburetor SPL 310 1500's listed elsewhere in Amazon
