Voices from the Classroom Brian Hand, Lori Norton-Meier, 2011-10-25 There is much attention currently being given to argument based inquiry in national and state curriculum documents Students are being required to be able to generate and evaluate science knowledge and to think critically and judge the value of evidence and explanations The intent of the book is to provide a rich and broad view of the impact of argument based inquiry in the elementary classrooms from the perspective of the teacher All the teachers and professional development authors were engaged in promoting and using argument based inquiry as the approach to teaching science They were implementing the Science Writing Heuristic SWH approach as the argument based approach for classroom practice As researchers we constantly work to present our views of these experiences with the voice of the teachers only being relayed through the perspective of the researcher The intent of this book is to provide an opportunity for us as a community to listen to what the teachers are telling us Importantly as demands are being placed on classroom experiences that provide opportunities for students to pose questions make claims and provide evidence that is to think critically and reason like scientists we need to understand what this looks like from the perspective of the teacher This book brings together a range of elementary teachers from kindergarten through to year 6 who have used the Science Writing Heuristic approach to teach argument based inquiry These teachers have all gone through professional development programs and successfully implemented the approach at a high level

Parade of Life ,1993 *Nature-Based Solutions for Urban Water Management* Junguo Liu,Zhan Tian,Qinhua Ye,Laixiang Sun,Shiqiang Wu,2024-02-23 Water plays an essential role in the development and functioning of a city but could also be a key risk factor for urban pluvial flooding which may occur more frequently in the context of future climate change The traditional means of flood risk management relied heavily on engineering measures or the use of gray infrastructure Recently there has been a call to integrate nature based solutions NBS which make use of natural processes and ecosystem services with conventional engineering approaches NBS infrastructures and designs pay great attention to ecosystem services considerations in assessing their induced hydrological processes as well as in managing the stormwater and

mitigating urban flood and droughts Nevertheless compared with grey infrastructure larger space could be demanded for NBS while the buffer effect for NBS in extremes events is still uncertain for evaluation Underwater Wild Craig Foster (Filmmaker), Ross Frylinck, 2021 Craig Foster and Ross Frylinck regularly dive together in the awe inspiring kelp forests off South Africa without wetsuits or oxygen tanks Craig had dived this way for years including alongside the octopus that inspired *My Octopus Teacher* In Ross he found a kindred spirit someone who also embraced the ancient methods of acclimating his body to frigid waters but whose eyes had not yet adjusted to the transcendent wonder Craig saw each time they dove In the heart wrenching stories that make up this unforgettable book we swim alongside Ross as he grows from skeptic to student of the underwater wild And in the revelatory marine science behind the stunning photos we learn how to track sea hares cuttlefish and limpets and we witness strange new behaviors never before documented in marine biology We realize that a whole world of wonder and an innate wildness within us all emerge anew when we simply observe publisher's website
