Damico,Sara E. Quay,2016-02-12 In its exploration of

some of the most influential popular or critically acclaimed television dramas since the year 2000 this book documents how modern television dramas reflect our society through their complex narratives about prevailing economic political security and social issues Television dramas have changed since the turn of the 21st century for the good many would say as a result of changes in technology the rise of cable networks and increased creative freedom This book approaches the new golden age of television dramas by examining the programs that define the first 15 years of the new century through their complex narratives high production value star power popularity and enthusiastic fan culture After an introduction that sets the stage for the book s content thematic sections present concise chapters that explore key connections between television dramas and elements of 21st century culture The authors explore *Downton Abbey* as a distraction from contemporary class struggles patriarchy and the past in *Game of Thrones* and *Mad Men* and portrayals of the dark hero protagonist in *The Sopranos* *Dexter* and *Breaking Bad* as a few examples of the book s coverage With its multidisciplinary perspectives on a variety of themes terrorism race class gender family dynamics and sociopolitical and socioeconomic topics this book will be relevant across the social sciences and cultural and media studies courses
