Economics David F. Batten,2019-03-01 I Ve live in an astornshingly complex world Yet what we do in our everyday lives seems simple enough Most of us conform to society s rules pursue familiar strategies and achieve reasonably predictable outcomes In our role as economic agents we simply peddle our wares and earn our daily bread as best we can So where on earth does this astonishing complexity come from Much of it is ubiquitous in nature to be sure but part of it lies within and between us Part of it comes from those games of interaction that humans play games against nature games against each other games of competition games of cooperation In bygone eras people simply hunted and gathered to come up with dinner Today you can find theoretical economists scratching mysterious equations on whiteboards not even blackboards and getting paid to do this In the modern economy most of us make our living in a niche created for us by what others do Because we ve become more dependent on each other our economy as a whole has become more strongly interactive *Billboard* ,1956-01-28 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends
