Sprinkling Love Understanding True Love:

Sprinkling Love Casper Principe, 2014-08-20 Society with its dirt and debris has transformed some of us into wild beasts beyond recognition Some of our souls have been degenerated and deformed by society to the point of having a false sense of love This book will help you understand your true nature by looking deep inside yourself to find the inner self the soul where love resonated before this earth life put ashes on it It s deep inside and resides in all who have been born on this earth Just as those who catch sight of Glaucus a dead fisherman according to Greek myth who had been turned underwater into a hybrid god of the sea covered with aquatic debris would no longer easily see his original nature because some of the old parts of his body have been broken off and the others have been ground down and thoroughly maimed by the waves at the same time as other things have grown on him shells seaweed and rocks so that he resembles any beast rather than what was by nature so too we see the soul in such a condition because of countless evils The answer is a kind of intellectual odyssey a spiritual wandering or quest undertaken by an open minded person looking for an acquisition of knowledge that reveals our true nature The Republic by Socrates Rousseau stated It is no light undertaking for man to separate himself what is original to what is artificial it is hard to judge ourselves objectively How are we to change Perhaps by a certain kind of rapturous illumination just as Rousseau found it in his own heart by knowing himself He wrote The principle is freedom it is a purely spiritual fact born free the human being is everywhere in chains it is not authorized by natural law Evil is a product of society An intelligent person will find a way to their inner self by looking beyond the dirt and debris deposited by society and learning about True Love Casper Sean Principe

A good night sleep, your solution to sleep disorders Arnaud van der Veere,2021-01-19 We sleep half of our life Some feel like losing

half others is willing to offer the other half to get a good sleep Sleep is useful we all need time to reset our brain remove the pollution of unwanted memories worrisome details clean the neural system from leftovers of the last working day and most of all to make a fresh start on every new day In all countries of the world scientists are busy with the secrets of sleep They work in their own box In this book we get out of the narrow science boxes to learn and understand the reasons for sleep what to do if we have sleep problems and if we have how to solve them Sleep is often connected with rituals When we get problems with our sleep patterns and reconsider the rituals we become aware of the importance of sleep Normally we take our rest for granted but when deprived of our nightly escape to the dream world we become cranky moody and lose concentration Sleep disorder is life threatening The danger of loss of focus the impossibility of concentration and an increasing lack of awareness become a danger to oneself Most accidents on the road are due to sleep disorders road signs are placed to warn drivers to stop every 2 hours to rest at least 15 minutes Pills also called barbiturates hypnotics or just drugs seems harmless We live in a fast time in need of actions and even faster results The demand and supply chain is strong here Sleep disorder patients demand the supply of pills In each medicine box messages to the user are included do not use this product longer than 4 to 6 weeks Some read these lines only after many years of use In this book we mention the danger of over medication we offer natural solutions and tips on DIY do it yourself We have no borders and no limitations everything that works is shown no matter cultural or moral background You want to sleep and we help you do so Sleep disorders have become a major problem for every society When working as a therapist from 1979 till today I encountered these disorders with most incoming cases A short preliminary study in Asia showed the astonishing number of 500 million users of sleep medication drugs Society is increasing the pressure on all of us It seems that our lifestyle costs and income are all under pressure and we worry more than ever before The daily pressure of survival makes us lose one of the most important features of relaxation our sleep Why do I like to assist a person with a sleep disorder My reason is simple I think sleep is a major part of our life and we do need to sleep to function well With good sleep we can make the best of our life After a few good nights you feel like you can handle the world Sleeping is important to get old in a healthy way Your life is between 1 3 in your bed and you want to do this in the most pleasant way **New-Church Messenger** ,1925 *The Medical Pickwick* ,1920 **Doveton: Or, The Man of**
