

HXR-MC2000E

**1/4-inch Exmor R™ CMOS Professional AVCHD
Shoulder Mount Camcorder**

Making a professional impression

The HXR-MC2000E provides a professional look and shooting style which is ideal for weddings, corporate communications or education facilities. While light and easily portable, its full Shoulder Mount design means your clients immediately know you mean business. Workflow flexibility is enhanced by the ability to record directly onto a removable memory card or a 64GB internal flash memory storage system in High Definition or Standard Definition.

The latter option provides almost six hours continuous recording – perfect for those occasions where you don't want to stop recording, such as weddings or business conferences.

The HXR-MC2000E is designed to be the ideal, entry-level match for almost any type of non-linear workflow. It's an exceptionally cost-effective production package for DVD or Blu-ray content, one that's flexible enough to express your creative ideas and meet your client's requirements.

This product comes with PrimeSupport – fast, hassle-free repairs and a helpline offering expert technical advice. Which gives you the peace of mind that Sony is looking after your equipment, and your business.

LIMITED TIME PROMOTION

Buy this camcorder before 31st March 2011, to get your complimentary copy of Vegas Pro 10.

See www.pro.sony.eu/vegaspromo for terms and conditions.

Features

Wide-angle G Lens

The HXR-MC2000E comes equipped with a sophisticated G Lens that incorporates Sony's unique optical design technology and quality control, delivering exceptional performance on a par with some of the best lenses in the industry. The HXR-MC2000E itself is optimised to perfectly complement the G Lens with an advanced image sensor and Sony's famous image processing technology. This improves picture performance whether zooming in on the action, or getting a perspective on the big picture with the 29.8 mm wide angle in Video mode (35mm equivalent).

Exmor R™ CMOS Sensor with ClearVid Array

The HXR-MC2000E's Exmor R™ CMOS sensor is capable of producing superb image quality even in low-light conditions. Sony's unique imaging system incorporates exclusive back-illuminated technology that doubles sensitivity compared to conventional CMOS sensors, providing a dramatic boost in low-light performance. Autofocus technology is also enhanced to perform better in low-light conditions, so the G-lens can quickly achieve sharp focus on a moving subject. This superb performance in dimly indoor scenes and outdoor night scenes is matched by excellent results in bright daylight.

Optical SteadyShot with Active Mode

This feature ensures smooth movement while recording footage in many challenging shooting situations. In addition, Sony's innovative 3-Way Shake-Canceling technology adds electronic roll stability for even smoother video capture. This latest version of image stabilisation technology realizes images that are up to 10x steadier for wide angle shooting than conventional Optical SteadyShot images. As the user zooms in, an intelligent digital image stabiliser starts to blend in and work together with its optical counterpart to effectively reduce camera shake. This technology also reduces shake in the rolling direction that commonly occurs when shooting while walking.

Manual Lens Ring with Assignable Parameters

Using the assignable lens ring, users can manually adjust key parameters like Focus, White Balance, Exposure, AE Shift, Iris priority and Shutter Speed
