Carnegie Library of Pittsburgh,1918 **Developing Deep Knowledge in Middle School Mathematics** Sergei

Abramovich,Michael L. Connell,2021-05-10 This textbook is for prospective teachers of middle school mathematics It reflects on the authors experience in offering various mathematics education courses to prospective teachers in the US and Canada In particular the content can support one or more of 24 semester hour courses recommended by the Conference Board of the Mathematical Sciences 2012 for the mathematical preparation of middle school teachers The textbook integrates grade appropriate content on all major topics in the middle school mathematics curriculum with international recommendations for teaching the content making it relevant for a global readership The textbook emphasizes the inherent connections between mathematics and real life since many mathematical concepts and procedures stem from common sense something that schoolchildren intuitively possess This focus on teaching formal mathematics with reference to real life and common sense is essential to its pedagogical approach In addition the textbook stresses the importance of being able to use technology as an exploratory tool and being familiar with its strengths and weaknesses In keeping with this emphasis on the use of technology both physical manipulatives and digital commonly available educational software it also explores e g the use of computer graphing software for digital fabrication In closing the textbook addresses the issue of creativity as a crucial aspect of education in the digital age in general and in mathematics education in particular *The Pedagogical Seminary* ,1918 Vols 5 15 include Bibliography of child study by Louis N Wilson **Catalogue of Title-entries of Books and Other Articles**

Effective Literacy Assessment in the Montessori Classroom Natasha Feinberg,Susan Zoll,2025 From the authors of *Powerful Literacy in the Montessori Classroom* this new book focuses on the practical implementation of Montessori teaching and assessment methods The authors describe how reading research and Montessori s scientific pedagogy and language curriculum play out in actual classrooms through concrete examples of structured literacy instruction Using the timeline of a typical school year as a framework the book contains three primary sections 1 Starting the School Year Setting the Stage so Reading Improves for Every Student 2 All School Year Long Integrating Data Progress Monitoring and Instruction to Maximize Reading Success for All Students and 3 Wrapping up the School Year Prioritizing Keeping On and Defining Next Steps Each section contains an overview of current research and theorists to delineate assessments and literacy goals prioritized at these key points across the academic year Chapters feature activities assessments and case studies adapted from diverse Montessori classrooms Book Features Shows what the Montessori curriculum looks like when reading research currently known as the science of reading is implemented Demonstrates how lessons a comprehensive assessment system and logistics work in a real world setting Defines the Montessori curriculum as both comprehensive and integrated showing

that materials for building reading skills background knowledge and vocabulary are found throughout the classroom through a single curriculum Helps Montessori educators and administrators especially those working in publicly funded schools address state legislation requiring approved curriculum aligned to the science of reading Supports all educators interested in meeting reading legislation *The Art of Educational Leadership* Fenwick W. English, 2007-08-14 English successfully challenges the established educational community to rethink the current state of research on school leadership in the social sciences The inclusion of theory discourse and stories of recognized leaders followed by chapter learning extensions that include key concepts movie recommendations and prompted reflective journaling makes this book a most valuable resource for the educational leadership community H J Bultinck CHOICE The Art of Educational Leadership provides one of the most complete examinations of leadership that I have encountered I admire the way it urges students to think and reflect The format allows individual learners to focus on those materials that best fit their learning style while the numerous presentations of a single topic through the different modalities strengthens the learning This text is a fresh new look at leadership Louise L MacKay East Tennessee State University Fenwick W English returns to themes of leadership he explored in more than 20 earlier books and dozens of presentation to educator audiences He favors re centering educational leadership in the humanities rather than acting on the recommendation of the business literature and he emphasizes the use of films as a way to humanize leadership concepts THE SCHOOL ADMINISTRATOR Excellent cogent analysis of key concepts of leadership are presented in a reader friendly style Saul B Grossman Temple University Moves beyond established notions of leadership to recognize that effective leading is about drama and performance artistry The Art of Educational Leadership Balancing Performance and Accountability stresses the human side of leadership No other text on this topic demonstrates so ably the importance of artistry in leadership in a field that has been lopsidedly dominated by concepts informed by science Presenting the idea that leadership is an art this book Exemplifies a balance between the science and the art of educational leadership The real improvement of practice is rooted in the art of application which is about context and represents the key to leadership practice Connects content material to self discovery Exercises at the end of each chapter include creating a personal reflective journal to engage the reader in and reflect upon theories and practices presented in the book Films are suggested for viewing to illustrate the interaction between context culture decisions and outcomes Portrays multicultural leadership in action Biography boxes throughout the book share how multicultural educational and political leaders who have been recognized as expert practitioners learned the art of leadership in the public arena This is the first book in educational leadership to sketch out a balance between the science and the art of the field The text illustrates how performance and practice represent the art while the delineation of the skills and conceptual models represent the science **Bulletin [1908-23]** Boston Public Library, 1918 Montessori Angeline Stoll Lillard, 2008-08-12 One hundred years ago Maria Montessori the first female physician in Italy devised a very different method of educating children based on her observations

of how they naturally learn In Montessori Angeline Stoll Lillard shows that science has finally caught up with Maria Montessori Lillard presents the research behind eight insights that are foundations of Montessori education describing how each of these insights is applied in the Montessori classroom In reading this book parents and teachers alike will develop a clear understanding of what happens in a Montessori classroom and more important why it happens and why it works Lillard however does much more than explain the scientific basis for Montessori s system Amid the clamor for evidence based education she presents the studies that show how children learn best makes clear why many traditional practices come up short and describes an ingenious alternative that works Now with a foreword by Renilde Montessori the youngest grandchild of Maria Montessori Montessori offers a wealth of insights for anyone interested in education

Pedagogics of Liberation

Enrique D. Dussel, 2019 Enrique Dussel is considered one of the founding philosophers of liberation in the Latin American tradition an influential arm of what is now called decoloniality While he is astoundingly prolific relatively few of his works can be found in English translation and none of these focus specifically on education Founding members of the Latin American Philosophy of Education Society David I Backer and Cecilia Diego bring to us Dussel s *THE PEDAGOGICS OF LIBERATION* A Latin American Philosophy of Education the first English translation of Dussel s thinking on education and also the first translation of any part of his landmark multi volume work *Towards an Ethics of Latin American Liberation* Dussel s oeuvre is an impressive intellectual mosaic that uses Europeans to disrupt European thinking This mosaic has at its center French philosopher Emmanuel Levinas but also includes Ancient Greek philosophy Thomist theology modern Enlightenment philosophy analytic philosophy of language Marxism psychoanalysis Freud Klein evolutionary psychology neuroscience phenomenology Sartre Heidegger Husserl Hegel critical theory Frankfurt School Habermas and linguistics Dussel joins these traditions to Latin American history literature and philosophy specifically the work of Octavio Paz Ivan Illich and the philosophers of liberation whom Dussel studied with in Argentina before his exile to Mexico in the late 1970s Drawing heavily from the ethical philosophy of Emmanuel Levinas Dussel examines the dominating and liberating features of intimate concrete and observable interactions between different kinds of people who might sit down and have face to face encounters specifically where there may be an inequality of knowledge and a responsibility to guide teach learn care or study teacher student politician citizen doctor patient philosopher nonphilosopher and so on Those occupying the superior position of these face to face encounters teachers politicians doctors philosophers have a clear choice for Dussel when it comes to their pedagogics They are either open to hearing the voice of the Other disrupting their sense of what is and should be by a newness beyond what they know or following the dominant pedagogics they can try to communicate and instruct their sense of what is and should be to the supposed tabula rasas in their charge Dussel calls that sense of what is and should be lo mismo This groundbreaking translation makes possible a face to face encounter between an Anglo Philosophy of Education and Latin American Pedagogics Pedagogics should be considered as a type of philosophical inquiry alongside ethics

economics and politics Dussel's pedagogics is a decolonizing pedagogics one rooted in the philosophy of liberation he has spent his epic career articulating With an Introduction by renowned philosopher Linda Martin Alcoff this book adds an essential voice to our conversations about teaching learning and studying as well as critical theory in general ENRIQUE DUSSEL was born in 1934 in the town of La Paz in the region of Mendoza Argentina He first came to Mexico in 1975 as a political exile and is currently a Mexican citizen Professor in the Department of Philosophy at the Iztapalapa campus of the Universidad Autónoma Metropolitana Autonomous Metropolitan University UAM and also teaches courses at the Universidad Nacional Autónoma de México National Autonomous University of Mexico UNAM He has an undergraduate degree in Philosophy from the Universidad Nacional de Cuyo National University of Cuyo in Mendoza Argentina a Doctorate from the Complutense University of Madrid a Doctorate in History from the Sorbonne in Paris and an undergraduate degree in Theology obtained through studies in Paris and Münster
