Though qualitative research methods shape scholarship around the globe and institutions worldwide offer qualitative coursework there is very little explicit discussion on how to effectively teach qualitative research Instead a standard approach is for instructors to gain in depth expertise in qualitative methodologies with little or no pedagogical training The effect is a continuous and nearly exclusive emphasis on content knowledge that undermines the preparation of novice researchers as both teachers and learners This book works to fill that gap by offering perspectives strategies and applications from instructor and student perspectives based on a semester long class emphasizing social justice in qualitative research This edited volume offers sections on pedagogical strategies students responses to and applications of those concepts and then instructor reflections The goal is to offer an important starting point for explicit discussions on how qualitative research might be taught and learned in addition to how it might be thoughtfully and ethically conducted Contributors are Erica T Campbell Sun Young Gu Kelsey H Guy Aimee J Hackney April M Jones Alison N Kearley Caran Kennedy Amon Neely Cowan Allyson Pitzel Diana Quito Erin E Rich Stephanie Anne Shelton Ashley Salter Virgin and Venus Treva Watson Translanguaging and English as a Lingua Franca in the Plurilingual Classroom Anna Mendoza, 2023-03-09

This book explores multilingual practices such as translanguaging code switching and stylization in secondary classrooms in Hawai i Using linguistic ethnography it investigates how students in a linguistically diverse class including those who speak less commonly taught languages deal with learning tasks and the social life of the class when using these languages alongside English as a lingua franca It discusses implications for teachers from balancing student needs in lesson planning and instruction to classroom management where the language use of one individual or group can create challenges of understanding participation or deficit identity positionings for another The book argues that students must not only be allowed to flex their whole language repertoires to learn and communicate but also be aware of how to build bridges across differences in individual repertoires It offers suggestions for teachers to consider within their own contexts highlighting the need for teacher autonomy to cultivate the classroom community s critical language awareness and create conducive environments for learning This book will appeal to postgraduate students researchers and academics working in the fields of sociolinguistics and linguistic ethnography as well as pre service and in service teachers in linguistically diverse secondary school contexts Resources in Education , 1997 **Research in Education** , 1974 Student Learning Communities Douglas Fisher, Nancy Frey, John Almarode, 2020-11-25 Student learning communities SLCs are more than just a different way of doing group work Like the professional learning communities they resemble SLCs provide students with a structured way
