VIP - CLOSE PROTECTION

CHAPTER 2:

TERMINOLOGY AND STRUCTURE OF A CLOSE PROTECTION TEAM

Learning outcomes for Chapter 2.

After completing this chapter, you should be able to: identify the typical positions within the close protection team; explain the function of each position in the close protection team; and understand and explain the basic terminology that CPOs use.

The close protection team

Before we describe the various members of the close protection team, we'll define CPOs and the close protection team in more detail.

The close protection team is assigned to carry out an operation with the aim of protecting the principal. The close protection team comprises various CPOs, who are all responsible for the protection of the principal. Different members of the team will accompany the principal to various venues, secure the venues, and supply weapons and equipment. CPOs are members of the close protection team, who are all trained in close protection skills. CPOs may be tasked with a variety of duties. For example, a CPO may be a driver, part of the advance team, or part of the personal escort section (PES) team, or back-up team. The bodyguard is a member of the PES team.

While CPO positions may vary according to the number of CPOs available for an operation, the close protection team will usually include the following positions:

- the personal escort section (PES) team;
- the bodyguard (BG), the team leader (TL), the points man (P), left flank (LF), right flank (RF) and tail or rear;
- the advance team (we'll cover some of the knowledge you'll need in this team);
- the drivers (we'll cover some of the knowledge you'll need as a driver);
- the mobile support team or back-up team (we'll cover some of the knowledge you'll need in this team);
- and the operational commander (OC).

Apart from the principal, the close protection team may need to liaise with support staff, the police, managers of various venues, dignitaries and so on.

The close protection team is similar to a rugby or football team in that every member can make a name for himself or herself in his or her given position in the team while making an equally valuable contribution to the team's goals.

We'll look at each of these positions in the CPO team more detail. Firstly, however, we'll outline the position of close protection detail commander.

Close protection detail commander

The close protection detail commander is responsible for:

guides close protection training;
co-ordinating protection operations;
managing personnel provision;
and liaising with senior management and principals.

Vip Close Protection Training Manual:

Protection Officer Training Manual Sam Stuart, 2016-06-06 Protection Officer Training Manual Fifth Edition is a guidebook that provides a comprehensive coverage of security practice. The book is comprised of 27 chapters that are organized into 10 units. The coverage of the text includes various security procedures such as patrolling, traffic management and crowd control. Security threats are also covered including explosives, fire and hazardous substances. The book also covers emergency or high risk situations such as V I P protection, crisis intervention and first aid administration. The text will be most useful to security trainees and instructors. Individuals involved in administrative and management positions will also benefit from the book.

South Africa's High-Stress Security Environment Gerhard Schoeman, 2024-10-11 This book presents valuable insights into the realities faced by security personnel as they deal with life threatening situations in a high stress security environment. The causes and consequences of stress are explored followed by a comprehensive discussion of coping strategies and the negative consequences of not being able to cope effectively. In this book a scientifically tested accessible model is also developed which provides a visual overview of the stress management process and captures the flow between stressors, personality and coping strategies. South Africa's High Stress Security Environment is a helpful guide for anyone who wants to gain a wider understanding and appreciation of the challenges and the courage of security personnel which we often take for granted. Print edition not for sale in Sub Saharan Africa.

The Counter Terrorist Manual Leroy Thompson, 2009-10-19 A comprehensive guide to counterterrorism units around the world and their recruitment, training, weapons, equipment, tactics and missions. In the past thirty five years counterterrorist units have been deployed to deal with airplane, ship, train and bus hijackings. They have rescued hostages in various types of buildings and have dealt with barricaded bank robbers, prison rioters and assorted dangerous criminals. Thousands have been rescued and millions have been safer because terrorists were aware that elite antiterrorist units were poised to act should they take hostages. Following the September 11th attack on the World Trade Centre the mission of many anti terrorist units has expanded. Some units now track terrorists to their lairs in other countries and strike them there. Despite the significant and growing role of these units little is known about the way they operate. The selection, training, structure and principles of maintaining such units together with basic theories of asymmetric warfare are the subject of Thompson's latest work. In a practical step by step guide he analyses the necessary organization of such elite teams, the arming and equipping of units and methods for a variety of missions from hostage rescue and high level dignitary protection to securing foreign embassies and counter WMD strikes. Open the pages of this book and enter the world of the counterterrorist operator. Praise for The Counter Terrorist Manual: A finely illustrated guidebook to antiterrorist units deployed to handle airplane, ship, train and bus hijackings. Units around the world are examined in a survey of these elite antiterrorist units and their operations, a pick for any military library and packed with color photos of equipment and more.
