Romeo Telephone Directories ,1975 Cracking the Code to Profit Ryan J. Sciamanna,2018-01-25 What is Cracking the Code to Profit Cracking the Code to Profit is the complete start to finish blueprint for building a REAL BUSINESS in the lawn care and landscaping industry The author Ryan Sciamanna shares all his knowledge on how he went from a solo operator to six crews in three years Who is the book for Cracking the Code to Profit is for anyone thinking about starting a lawn care business to companies trying to break through the 200k to 300k gross revenue barrier If you would like to but are not

already making 100k per year as the owner of your lawn care company you will benefit from reading this book Why Ryan wrote the book In 2016 Ryan narrowed his lawn care companies service offering down to lawn mowing and lawn treatments only Prior to that his company was a full service lawn and landscape service provider offering all of the typical services including mulching pruning cleanups leaf removals hardscapes landscape design and installation and snow removal He made the change in his business model to increase profit margins and reduce the amount of time required of him as the owner of the business Naturally he needed to find referral partners for his lawn care customers because they still had other lawn and landscape needs his company no longer performed He contacted several other lawn and landscape business owners in his area and told them he wanted to send them referrals for the work his company no longer performed and only asked they don't steal his customers for the services they were still providing After shooting off the first several referrals Ryan quickly realized that a lot of these companies needed help and until they improved their business operations referring his clients to them was only making him look bad He has since stopped referring work with the exception of a couple companies that proved they would provide his customers quality work at fair prices and actually be reliable Ryan says I think most lawn care business owners started their business just like I did they enjoyed the work and were good at it so they said why not work for myself In the beginning it usually goes pretty smooth but as they add more and more customers and eventually need to hire employees they get in over their heads I did the same thing but quickly educated myself on how to run an actual business and not just be self employed He organized all of his knowledge into *Cracking the Code to Profit* in hopes it will save new business owners years of frustration Ryan read a similar book before he started his business that his father had bought for him online It was actually just a word document that someone had written on starting a lawn care business and his dad printed it off for him It cost his father 79 95 for that Ryan still has that book and even though it was overpriced terrible quality and a lot of the information was not good he still credits that book towards helping him get his business off the ground What you can expect from *Cracking the Code to Profit How to Start a Lawn Care Business* The book flows in chronological order from starting your business to your exit strategy Ryan put every detail he could recall from his own experience You can see the book chapters in the book preview After each chapter action steps are included so you know exactly what you need to do At the end of the book you will find the resource section for continued learning and execution You can expect to have a much better understanding of how to start and grow your lawn care business is a healthy profitable way Ryan's contact info is also included in the book He would love to hear from you after you finish it [Plano and the Interurban Railway](#) ,2009 Over a century ago an industrial America was awakening and a new transportation technology arrived on the north Texas prairie electric interurbans Planos Interurban Railway depot was dedicated in July 1908 and electric interurban rail travel began with the creation of the Texas Traction Company In 1917 three separate systems were connected by a single entrepreneur J F Strickland Throughout the 1920s the Texas Electric Railway traveled in and out of

Plano carrying riders mail and freight The system was built to travel on existing streetcar tracks and often ran over private rights of way between cities To promote interurban travel the company created unique cars and special classes of service to appeal to every need In the postWorld War II era however the popularity of automobiles ended the important era of electric interurban travel

Sorrento, Mount Plymouth, and East Lake County Bob Grenier and the East Lake Historical Society,2023-02 The town of Sorrento in East Lake County named for the picturesque coastal town in southwestern Italy famous for its abundance of orange and lemon groves was first settled in 1875 by the William Butts family They were soon followed by the Kerr Reeve and Miner families That same year five bachelors from Ohio arrived among them being Albert Matlack and Ed Averill who were instrumental in the development of this new community Matlack who opened the first mercantile business with Charles Adams surveyed charted and mapped the new town while Averill built the first tourist hotel called the Averill House By 1882 many motivated new settlers arrived which prompted swift growth in this scenic village carved from the Florida wilderness A church schoolhouse drugstore post office packinghouses dairy farms cattle and horse ranches and brick lumber and turpentine mills framed by peach orchards and endless rows of orange groves established Sorrento as a flourishing destination Mount Plymouth distinct with its famed Storybook homes of renowned architect Sam Stoltz and the celebrity winter retreat of the Mount Plymouth Hotel compliment the East Lake County landscape
